Send uninstructed delegations to Chicago.
Of course Cleveland's administration was heartily endorsed.
The democrats are all for Cleveland
If—if he can carry New York.
That's the serious question to be considered in Chicago.

WEATHER.

U. S. Department of Agriculture,
Weather Bureau.
Toledo, O., June 2, 1892.

The storm center over Missouri has moved rapidly northeastward and is central over the St. Lawrence valley. The storm in the northwest has increased in energy and magnitude and is advancing to the south and east.

There is an area of clearing conditions extending along the Atlantic and Gulf coasts, and one extending from Kansas to Lake Superior. Rains have been local and are reported from all sections. Heaviest falls during the past 24 hours are Kansas City, 1.22 inches, and Green Bay, Port Huron, Alpena, Des Moines, Grand Haven, Louisville, Rockliffe, Keokuk and Memphis over half an inch.

The weather is cloudy or rainy from St. Louis northeastward over the lakes and is generally fair in all other sections. The temperature has fallen over the lower Mississippi and Ohio valleys and lake region and risen elsewhere.

Signals are displayed on the lake for high winds.

Forecast for Toledo and vicinity—For 36 hours—Fair, followed by rain to-night or to-morrow; cooler.

Frank Hatton Comes Squarely Forward

And Says Neither Blaine Nor Harrison Should be Nominated—Will it be an Ohio Man—Ante-Convention Gossip.

Chicago, June 2.—Ex-Postmaster General Frank Hatton, in an interview on the presidential situation, said:

"I believe the men who are opposing Harrison, and say they are for Blaine, can defeat the former and nominate the latter, unless Mr. Blaine should have a pain in his head or stomach between this moment and the meeting of the convention.

"Suppose Mr. Blaine should defeat his chief, do you suppose the humiliated administration and its friends are going to put through sleepless nights to elect the ticket? Politics is not a thing of tears and sentiment. It is cold-blooded, with a knife up its sleeve and a razor in its boot.

"Should Harrison defeat Blaine and secure the nomination, party managers and workers are already on record as saying that he cannot be elected, and that they will do nothing to help him."

"What, then, do you think should be done?"

"Drop both men over whom the party is divided into bitter and relentless factions, and unite upon some great, strong, vigorous man who can and will get the united vote of the party. I do not believe either Harrison or Blaine can get a united and enthusiastic support in view of the bitterness that has grown up between their friends and individual supporters."

There are many of the delegates who are passing through Chicago who seem to be of the same opinion as Hatton, and to these people McKinley's name seems to have a charm.

WARNER MILLER.

He Will Make No Statement Until He Sees the Bosses.

New York, June 2.—A great deal of importance attaches to ex-Senator Warner Miller's position on the political situation. He has been claimed by both the Blaine and Harrison adherents.

Mr. Miller has been on the Pacific coast for some weeks, but yesterday he reached St. Louis.

In response to telegraphic request from the Press last night he forwarded the following message:

"I have made no statement regarding the presidential matter and will now wait until I reach Minneapolis and have an opportunity to consult with my colleagues."

"It is hard to say what will be the outcome. When I reached St. Louis I found a number of letters and telegrams from friends at home, advising me of the situation in New York, but the advices are so conflicting that I am unable to arrive at a conclusion before meeting and consulting with the full delegation.

"I hope for harmony among the New York delegates and trust that we can cast our vote as a unit. We ought to be able to win with anybody this year, though if factional differences arise in our delegation at Minneapolis, I fear they will be carried back home disastrously to the party in November.

"Without New York we are not so sure of winning and we must therefore fight for harmony in that state."

A woman "run-down," overworked, weak, nervous and debilitated—that's a woman that Dr. Pierce's Favorite Prescription is made for. It gives her health and strength. All woman's weaknesses and all woman's ailments are cured by it. It's a legitimate medicine—not a beverage; an invigorating, restorative tonic and a soothing and strengthening nervine, free from alcohol and injurious drugs. It imparts tone and vigor to the whole system.

For all functional irregularities, periodical pains, organic displacements and uterine diseases, it's a positive remedy.

And a *guaranteed* one. If it doesn't give satisfaction, in every case, the money paid for it is refunded. No other medicine for women is sold on these terms.

That's because nothing else is "just as good."

Perhaps the dealer will offer something that's "better."

He means that it's better for *him*.

CHAUNCEY M. DEPEW.

He States the Political Situation in His Usual Clear Manner.

Chicago, Ill., June 2.—Chauncey M. Depew, speaking of the possibility of Blaine being a candidate, said that Harrison was almost certain to be the nominee of the Minneapolis convention, but in case Blaine were nominated and refused, then Harrison could not be a candidate for an office declined by the chief officer of his cabinet. The demoralization of such an event would spread all over the country, and the party would be defeated before the election began.

"The air," he continued, "is surcharged with an unnecessary electricity caused by possible friction that may arise at Minneapolis. The inevitable and irresistible logic of the situation is the renomination of Harrison.

"This convention differs from any others of the last 25 years, in that in all the others favorite sons have been brought forth by their several states, to be sacrificed lambs on the altar of the general result. There has usually been enough of them to distract the convention for three or four days and to render the result somewhat of a lottery. Now the situation is entirely changed. The favorite sons have been remorselessly slaughtered in their own states. The only chance to beat Harrison was that the convention should vote for a half dozen or so of these favorite sons and so prevent a choice until his opponents could concentrate on somebody.

"But the supreme effort to induce Blaine to become a candidate has practically retired everybody but him, so that unless Blaine allows his name to be presented Harrison will be nominated by the potential force both of his record and his friends and by the default of the defendant.

"It is remarkable that so shrewd and so successful combination of political managers as is combined against the president should have staked everything upon an interrogative. If Blaine is a candidate they have of course the potential fame and universal popularity. If Blaine fails to say that he is actually in the race, they are like the last of the Caesars—in the vocative—or like Mahomet's coffins—suspended in the air. Nothing could be more suggestive of the difficulties of the situation to the opponents of Gen. Harrison than the spectacle of practical politicians like Platt, Quay, Clarkson and Foraker flirting with the ghost of Caesar and the coffin of Mahomet."

Mr. Depew, by way of enforcing his argument that Blaine would not be a candidate, said that he (Depew) was a friend of Blaine when to be a friend of his meant political destruction. He was for Blaine against Grant, Garfield and Hayes. Therefore, if there had been any intention on the part of Blaine to become a candidate, he was entitled to notice, would have received it, and would have gone to Minneapolis to nominate him. Not having received any such notice, he took Blaine's letter as official. He continued:

"Whoever runs for president on the republican ticket will succeed or fall upon the record of the Harrison administration. One man may stand for a protective tariff, another for the new navy, several others for the triumphant march of the American hog through the markets of the old world, and another for the Bering sea, the Samoan arbitration, the Chilean affair; for the interesting conference on bi-metallism, but there is only one man who, by the office he holds and the masterly way in which he has administered it, stands for all these things."

As to New York, Mr. Depew declared that not one-fourth of the Blaine men among the delegates would vote for Blaine unless he wrote a letter withdrawing his former letter to Mr. Clarkson. Gen. Harrison was the only man who, as a republican, had carried New York on state or national ticket since Garfield. He can carry it again, though the new election law gives some additional advantage to the democrats.

Cleveland as an Opponent.

"As to the democrats, the masses of the party want Cleveland and they will ask New York's support. Tammany cares for nothing but the control of the city of New York, and when it finds that the mass of the people outside that territory demand Cleveland, it will gravely announce that it has always been most heartily in favor of Cleveland's nomination.

"In New York state the 10,000 mugwumps who may be counted upon as possible democratic voters, and the 10,000 intellectual democrats—I give them 10,000 of that character out of the entire party—these if Cleveland is not nominated, will refuse to vote for a machine democrat. That bars out almost any man you can name with the possible exception of Palmer, of Illinois.

"The country will be astounded at the serene atmospheric conditions prevalent at the coming convention. Next Thursday morning I will make a speech advocating the nomination of President Harrison in the afternoon, join in the general hoop la at the nomination of Gen. Harrison by acclamation on Friday, meet you and members of the press to give a truthful diagnosis of the situation and an accurate prophesy of the election; and six months from now, when I am again in Chicago, you will come to ask me as to what present members of President Harrison's cabinet are liable to be retained by him during his second term."

DELEGATES TO CHICAGO.

Haskell and Le Suer Elected at Bryan.

Bryan, O., June 2.—The fifth district convention completed its work by sending Fred Le Suer, of Defiance, and C. N. Haskell, of Putnam, as delegates to Chicago. The alternates are E. Latamer, Bryan, and G. M. Saltzgaber, of Van Wert.

FROM THE SHOULDER.

Harrison Men Taking up the Fight in Earnest.

Minneapolis, June 2.—The early opening of the Harrison headquarters is a surprise to the Blaine men, who expected to be first when they come in with the national committee to-morrow. In short, the president's friends have stolen a march on the Blaine boomers, and the sudden arrival means fight from start to finish. It is said that their unannounced arrival and quick opening of headquarters was at a telegraphic suggestion from Washington. President Harrison has got his back up, and the men sent here and to come to-morrow are the same who did so much for Harrison's nomination in 1888. Gen. Michener and Hon. John C. New will be in command. Breach Carr and Gen. Dudley cannot come. This sudden strategic move will disconcert the Blaine people more than they will admit.

The chief speaker of the party this afternoon was Mr. Shiel, of Indianapolis, and he struck right out from the shoulder, not seeming to care who got in the way of his words. Said he: "It is certainly in very bad taste for Mr. Quay, who forced Delemater upon the representatives of Pennsylvania for governor, and was defeated; for Platt, who forced Fassett upon New York and was defeated, and for Foraker, whose disastrous campaign in Ohio is well remembered by the republican party—it is certainly in very bad taste for these men to dictate at this time to their party who its presidential nominee shall be. Their judgments are not backed by their records.

"The Blaine sentiment in this country is by no means as strong as people have been led to believe. It can be more properly called an anti-Harrison sentiment. We from Indiana are here to fight long and hard, and to win the fight, too. There is no shadow of a doubt but that Harrison will be renominated. There may be a slight skirmish with the opposition, but it will amount to no more than a skirmish in comparison with a decisive battle. After this preliminary brush we will go in and win. We have the delegates with which to do it, and it is the height of foolishness to talk about any serious or formidable opposition to the president.

"Speaking of Blaine, let me say that it would be very bad politics—conceding for the moment that it can be done—to set aside a man whose administration has been the pride of the country and a man who defeated Cleveland four years ago for a man who was beaten by Cleveland. When the delegates get down to business, and the dust which these calamity howlers have raised for the moment, has settled, this will be seen as clearly as we see it now.

"But, assuming, for argument's sake, that Blaine should be the winner," began the newspaper man.

"But we won't assume it, even for argument's sake," interrupted Mr. Shiel. "We won't assume it under any consideration. Blaine will not be a candidate; for Harrison will have no formidable nor united opposition—will have no opposition of any kind beyond the first flurry I have spoken of."

The Indianians are the most enthusiastic men who have yet arrived in Minneapolis. They talk Harrison everywhere and all the time; and if this favorite does not win it will not be because they are not doing all they can for him.

JINGOISM GALORE.

Harrison's Enemies Strike a Town Much as a Circus Does.

Chicago, June 2.—There have been small ante-convention gatherings here during the week. They were chiefly composed of men who are going to down President Harrison next week if they can.

They have struck the town like a circus and are making as much noise as Barnum's steam calliope.

Ex-First Assistant Postmaster General Clarkson, who was lifted out of his Iowa obscurity by President Harrison, is manifesting his gratitude by printing a two-column interview in this morning's Chicago Tribune, in which he smears Secretary Blaine all over with flattery which is so excruciatingly sweet that it nearly approaches the nauseating.

J. Sloat Fassett came all the way from New York to get the same paper to print a similar interview with him and our own dear Col. Conger and John M. Thurston of Nebraska join in the anybody-to-beat-Harrison chorus.

There are not many of these poor, disgruntled fellows, but they make an awful sight of noise and fill up columns of paper with their bewailings. And that is the reason they are here. They clearly show the purpose of the anti-Harrison men to shout so loud that the people will think there are really some of them. The clatter has already commenced in earnest. It will increase.

One of the leaders of the anti-Harrison movement said here to-day that if necessary the convention would be prolonged beyond next week and into the week after, and every expense of the delegates would be borne for them. The administration men are not making themselves prominent. Not one of consequence is in Chicago to-day.

It is stated here that President Harrison's name will be presented to the convention by Gov. McKinley. It is said on authority that the governor has been tendered the honor and that he has accepted.

The name of Secretary Blaine will be put in nomination by ex-Gov. Foraker. Of course he has not been asked to do so by Mr. Blaine, but the request has been made by Mr. Clarkson, who is the main Blaine boomer. These nominating speeches will tend to put Ohio to the front as the harvest field of oratory. It will also indicate that both Blaine and Harrison have friends in the Buckeye state.

A DAY AT GETTYSBURG.

High Water Mark Monument Dedicated.

A Great Day on the Old Battlefield Where the War Raged With So Much Fury.

Gettysburg, Pa., June 2.—The High Water Mark Monument was dedicated here this afternoon in the presence of an immense throng largely composed of union veterans, and in which the 1st, 2nd, 3rd., 5th., 6th., 11th., and 12th. army corps, as well as the artillery and cavalry were well represented, together with the representatives of the Army of the Potomac, the executives of this and adjacent states and others.

The oration was delivered by Congressman H. H. Bingham, of Philadelphia, who was wounded in the famous battle of which this monument is a memorial.

Gen. Bingham was captain and judge advocate on the staff of Major General Hancock, and was in the thick of the fray during Longstreet's assault.

When Brigadier General Armistead, with one hundred of his men led the advance of Longstreet's column in the most daring manner over the stone wall behind which the Philadelphia brigade lay, and when Armistead fell mortally wounded within the Union lines it was Capt. Bingham who received his messages and keep-sakes to be sent through Gen. Hancock to his family.

At the battle of Gettysburg he was wounded in the head near the copse of woods where the monument is erected.

ELECTRIC SUGAR.

The Defense in the Famous Case Taken Up.

Ann Arbor, Mich., June 2.—The defense in the electric sugar cases has commenced with Henry Hack, a friend of the Friend party, on the stand. He told of Cotterill urging that Friend's death be kept secret. Hack met Cotterill at Ypsilanti by agreement to try and effect a compromise and have the prisoners released from the Tombs. He told of going to the secret rooms of the factory with Cotterill, Howard and McDonald, from Scotland.

Mrs. Olive Friend, the defendant, was placed on the stand. She said that Friend was a German, and that they were married at Niles, Mich., in February, 1883. They went to Chicago and in a few weeks to New York. That summer Friend told her about his secret process, and took her to a place he had rented, showed her the machinery and demonstrated the method. She claimed the machinery was different from the models shown by the plaintiff and had electric wires attached. Friend used some preparation on the sugar before it was placed in the crusher, which made it sparkle while it purified. Her attorney asked her to explain what this was and she refused. She said their claim was to purify all grades of refined sugar, but not raw sugar. Cotterill drew all the contracts, which witness and her husband signed, and they never claimed to Cotterill to refine raw sugar. In all the contracts the article is called "material," but in several original drafts made by Cotterill the words "raw sugar" were used. The Friends objected to this, and they were changed. Several such drafts of contracts were presented, showing that Cotterill knew that the Friends would not contract to refine raw sugar.

MORE MONEY.

Consular and Diplomatic Appropriation Bill Presented.

Washington, June 2.—The diplomatic and consular appropriation bill was reported to the senate from the committee on appropriations. As it came from the house the bill carried an appropriation of $1,478,245, and this amount has been increased $231,800 by the committee, making a total of $1,710,045—being $1,053,120 more than the appropriation for the current year and $428,421 less than the estimates.

The missions to Colombia and Equador and to Peru and Bolivia, which were consolidated by the house, were restored to their present status, as were also the missions to Venezuela and Guatemala and Honduras.

The salaries of the consuls-general at London, Paris, Havens and Rio Janeiro were reduced from $6,000 to $5,000 each by the house, but were restored by the committee, as also were the salaries of 51 consuls reduced and 11 omitted by the house bill.

THE ROOT OF ALL EVIL

Is the Whisky and the Beer Industry.

Massachusetts Prohibitionists So Declare.

They Adopt a Platform That Calls for the Stoppage of the Manufacture of Intoxicants.

Worcester, Mass., June 2.—The Prohibition state convention was largely attended here to-day. Rev. Louis Albert Banks, of Boston, on assuming the chair spoke as follows:

The liquor traffic is the natural ally of every crime that gnaws at the heart of civilized society. Last year The Wine and Spirit Gazette made this frank confession: "The Phillips law, passed by the last legislature of Ohio, forbidding the sale if liquors in houses of ill-fame, went into effect on May 25. The importers of champagne in this city are beginning to feel the loss of business in Ohio. Piper Heidseick representatives in Cincinnati claim that the enforcement of the law in the big cities of Ohio will cost them $40,000 annually; Mumm company representatives estimate their loss at $30,000; importers of Pomerey Sec claim that they will lose $60,000, and other importers will suffer proportionate losses. The local brewers feel the effects of the law, as many houses sold large quantities of beer."

How clearly this reveals the sensitive nerves of kinship between the saloon and the house of prostitution.

It is a lawless traffic—so lawless that when, after the hanging of the anarchists in Chicago, the press reports carried the news over the country that a number of schools had been established in that city in which the principles of anarchy and hatred of American institutions were taught, nobody was astonished or questioned the additional statement that every one of these schools of anarchy were either held in a liquor saloon or in a room leading out of a barroom.

Yet neither of the dominant parties cares, or dares to deal candidly and honestly with this giant criminal.

In view of these facts it is surely neither impertinent nor unreasonable for us to appeal to the Christian men of Massachusetts, who are honestly consecrated to the building up of a pure and righteous civilization in this country, in behalf of a party which stands in politics for the essential principles, embodies in the prayers, the sermons, the songs of enlightened Christianity throughout the world.

Prohibition is young, the dew of young manhood is on its brow; the sunshine of new chivalry steams upon its path. The strength of righteousness is in its veins and the courage of immortal hope in its heart. There can be but one issue to such a struggle.

The Platform.

Following is the platform adopted:

The prohibition party of Massachusetts, in representative convention assembled, trusting in the righteousness of its cause, and the justice of Almighty God, acknowledges its allegiance to the national prohibition party and submits the following declaration of principles:

The supreme issue before the American people to-day is the liquor traffic and its attendant evils.

Neither high license nor local option furnish a solution of this problem as both legalize sin for a money consideration, local option because through it that which is morally wrong is made legally right.

The prohibition by law of the manufacture and sale of intoxicating beverages is the only method of dealing with this question.

Both old parties in this state have shown themselves utterly unable to cope with the drink evil.

The democratic party is the open ally of the saloon; the republicans are hopelessly divided. The situation in the nation is even worse.

The democratic party will not, the republican party dare not antagonize the liquor power. Another party therefore wholly free from the corrupting influences of this evil is a supreme necessity. As such a party, thoroughly organized in state and nation we ask the support of all friends of good government and opponents of the saloon.

We believe the perpetuation of our free American institutions depends upon the perpetuation of free public school system.

We denounce all attacks on our public schools from whatever source, as emanating from a spirit un-American, unpatriotic and hostile to our institutions and our liberties.

The revenues of the federal government must, under present conditions, be chiefly derived from duties on imports. Sound policy requires that excessive rates be avoided but that these duties be so laid as to encourage the industries of the whloe country and give protection to the manufacturer and laborer against the competition of the world.

The welfare of our country demands greater restrictions upon immigration. American citizenship should be carefully bestowed.

We are opposed to the free coinage of silver. All dollars coined should be as nearly as possible of equal intrinsic value. Our duty to the union soldiers and sailors should not be forgotten and they should not be compelled to depend upon charity for support.

We demand that woman receive equal wages with man for an equal amount of work.

RIVERS AND HARBORS.

The Bill May Strike a Snag and Not Get Through.

Washington, June 2.—The friends of the river and harbor bill are becoming somewhat anxious as to its ultimate fate. At present it stands upon the calendar with the senate amendments pending.

Should it again—as according to the rules it must do—run the gauntlet of the committee of the whole, the time of its final passage would be wholly problematical, as every item would be subject to further amendment, and its enemies would take advantage of the present depleted condition of the house to postpone its passage indefinitely.

Confronted with this condition the advocates of the measure have decided to ask the house to suspend the rules on Monday next in order to non-concur in the senate amendments and to agree to a conference.

As this motion will require a two-thirds vote, the committee on rivers and harbors are using means to make sure that every friend of the bill shall be present upon that day.

PENSION BILL.

Washington, June 2.—The senate appropriations committee has completed the annual pensions appropriation bill and will probably report it to the senate to-morrow. The bill carries a total appropriation of $146,350,000, being about $300,000 less than the estimates, and a little over $11,000,000 more than the house bill. The increase is for army and navy pensions and rent.

The treasury department to-day purchased 648,000 ounces of silver at $0.8840 @0.8865.

TO PARDON BARONDESS.

Watertown, N. Y., June 2.—Gov. Flower last night practically admitted that he intends to pardon Joseph Barondess, the labor leader.

HOME MISSIONS.

Tenth Annual Meeting of the North Ohio Conference.

Tiffin, O., June 2.—(Special.)—The tenth annual meeting of the Woman's Home Missionary society of the North Ohio Conference completed a two days' session in this city to-day by electing the following officers: President, Mrs. H. C. Hedges, of Mansfield; corresponding secretary, Mrs. N. S. Albright, Tiffin; treasurer, Mrs. T. S. Shepherd, Wooster; recording secretary, Mrs. M. R. Trimmins, Cleveland.

Cleveland district: President, Mrs. J. N. West, Oberlin; secretary, Mrs. M. R. Steves, Lagrange.

Mansfield district: President, Mrs. G. A. Reader, jr., Mr. Gilead; secretary, Mrs. Ada Lloyd, Ashland.

Sandusky district: President, Mrs. P. F. Graham, Sandusky; secretary, Mrs. Fred W. Wilcoxson, Tiffin.

Wooster district: President, Mrs. W. C. Dawson, Wooster; secretary, Mrs. Eva Jolly, Wooster. Mt. Vernon district: President, (to be filled), secretary, Mrs. A. D. Knapp.

HEAVY RAIN.

Upper Sandusky, O., June 2.—A storm passed over this city yesterday and the rain fell in torrents, equalling a cloudburst. The very bottom of the clouds appeared to have dropped out, and the streets and pavements were for a time almost submerged.

There was very little wind, however, and no damage has been reported as yet.

ANOTHER FLOOD COMING

Western Rivers Higher Than Ever Before.

A Rise of an Inch an Hour for Two Days.

Every Evidence that the Present Freshet Will be More Disastrous Than That Just Passed.

Keokuk, Ia., June 2.—The Mississippi river rose 16 inches yesterday and the Des Moines three feet.

The water is again pouring through the break in the Egyptian levees and Alexandria is submerged.

The river is rapidly rising and at the present rate will soon reach the highest mark of the season.

There were heavy rains about Keokuk for the past 48 hours. Keokuk and Western and Rock Island trains are abandoned.

At Dubuque the Mississippi had risen 24 inches in 24 hours yesterday and was still rising last night.

The saw-mills and packing houses have suspended and are moving their portable property elsewhere. The rain was still falling in torrents with no sign of clear weather.

Burlington reports heavy rains with the river rising rapidly. Much damage has been done to farming property in Illinois and Iowa by wind and lightning, and hardly a bridge or culvert is left standing.

It has rained incessantly at Clinton, Ottumwa and Cedar Rapids for 48 hours, flooding the lower stories of hundreds of houses.

All streams are rising rapidly and a repetition of the disastrous floods of last week is inevitable.

Highest in the History.

Murphysboro, Ill., June 2.—The present high water in the Mississippi river reaches the highest point in the history of the country for 50 years.

Forty thousand acres of land are submerged, destroying 1,000 acres of growing crops and carrying away dwelling houses, barns and fences, leaving 1,000 families with nothing to keep want from their door.

Fully 500 of the 1,000 families are tenants, and have neither food nor clothing and are calling for aid from their neighbors who are more fortunate.

No estimate can yet be put upon the property destroyed, but it will reach far beyond anything ever known in this country.

HE HAD A CLOSE CALL.

A Cuban Comes Very Near Being Lynched.

While Not Guilty He Had Guilty Knowledge Which He Would Not Divulge.

Key West, Fla., June 2.—Ernesto Camero, a Cuban, twice came near being hanged by a mob yesterday, for a crime he did not commit.

Rena Hooker, a 9-year-old negro girl, was assaulted on Sunday, and she was supposed to have indicated Camero as her assailant.

He was arrested and arraigned before Justice De Lamar, another Cuban, but dismissed.

It was believed by the crowd in the court room that he had let the prisoner go through partiality, and in two minutes after the case was dismissed a rope was thrown around Camero's neck. But before he could be strung up somebody released him.

Camero then rushed to the justice for protection, but De Lamar was roughly handled and the rope fixed around Camero's neck again and swung over a beam in the court room.

As it began to tighten Camero said the guilty man was named Fernandez. He had refused the information before. De Lamar then reversed his decision and committed Camero to jail.

Ten minutes afterwards Fernandez was told of the fury of the mob and that his guilt was known. Alarmed at this he stabbed himself over the heart and in the neck but not dangerously. He was arrested and jailed. Believing he was dying he confessed and cleared Camero.

HELD UP THE TRAIN.

An Express Car Gone Through in Short Order.

Wichita, Kas., June 2.—The southbound Santa Fe passenger train, which leaves Wichita at 5:45 p. m., was held up at 9:45 last night by masked robbers at the stock yards, near the station of Red Rock, in the Cherokee strip.

The train was flagged and the engineer and fireman were taken prisoners. The robbers then entered the express car, broke open the safe, and secured its contents. The passengers were not molested.

Deputy United States Marshal Madsen, at Guthrie, has been notified and will organize a posse and start in pursuit of the gang, the number of which is unknown. The money obtained is thought to be intended for Indian payments.

FINDLAY NOTES.

Findlay, O., June 2.—(Special)—David Cheney, a well known citizen, living on College street, was buried this morning.

The first annual county commencement under the new law will be held in this city on Saturday, June 11. There will be seven graduates from the county schools.

Mrs. Maggie Finlay was adjudged insane by Judge Kerns yesterday, and sent to the the Toledo asylum.

Commencing to-night the city will be in darkness for a week to make repairs at the electric light plant.

The marriage of E. M. Boyle, of this city, to Miss Carrie Tracy, of Lima, has been announced in that city.

THEY DECIDED TO FUSE

Democrats and People's Party in Kansas

To Stand Shoulder to Shoulder this Fall.

Republicans Seem to Meet Reverses Again This Fall—The Electoral Vote to be Split.

Kansas City, Ks., June 2.—A joint meeting of the democratic and people's parties was held here which may result not only in defeating the republicans again at the coming state election, but also in transfering Kansas from the list of republican states to at least the doubtful column.

The meeting decided that it would be well for the democratic and people's party to form a coalition against the republicans in the coming elections.

Among those representing the democratic state committee were W. C. Johns, chairman of the committee; W. H. Pepperill, ex-Gov. Chas. Robinson, Hon. C. W. Blair, S. F. Neely, J. B. Chapman, John S. Richardson, W. C. Perry, Frank Pacon, Sam Riggs and B. J. Sheridan.

Those representing the people's party were S. W. Chase, chairman of the central committee; R. M. Chenault, H. P. Vrooman, W. C. Jones of Eureka, Levi Dumbauld, Judge Raney, J. M. Bell, L. Van Voorhees, W. H. Wakefield, J. H. True and J. H. Latimer. Besides those leaders mentioned there was a large attendance of privates of both parties.

The meeting went into secret session at 11 o'clock and did not adjourn until 5 in the afternoon. During the intervening hours the whole matter of fusion was discussed, and a resolution was adopted giving the sense of the meeting as in favor of fusion.

The resolution is kept secret for some reason unknown until next Saturday, when the secretary is authorized to give it out for publication.

The preamble of the resolution sets forth the advantages of fusion, and arranges the details of the coalition as follows: The democrats are to be given the candidates for chief justice of the supreme court and congressman at large. The rest of the state ticket is to be given to the people's party. The candidates of the two parties will be nominated at separate conventions, the democrats on a democratic platform and the people's party men on a reform platform, the object being to avoid indorsement by either party of the other's principles.

The matter of presidential electors was discussed thoroughly, and it was decided that a coalition should be formed also in that direction.

The details of the fusion in that quarter, however, were not definitely settled upon, that matter being left to a meeting to be held later. The reason for postponing action on the fusion on presidential electors was the desire of the alliance to get the whole plum. They want all the presidential electors, while the democrats think they are entitled to half of them, considering the concession they have made on the state ticket. They want to divide the electors equally between both parties. It is believed the differences between the two parties on this question will be amicably settled.

The sentiment was "anything to beat the republicans." The representatives of both parties were willing to make almost any concession to attain that end.

The man most prominently mentioned in connection with the nomination by the democrats as the candidate for chief justice of the supreme court is Judge John Martin, a life-long democrat. David Overmyer, of Topeka, seemed to be the favorite for the nomination for congress-at-large. The people's party men wanted Attorney-General Ives for governor, but the democrats did not think he was strong enough. That opinion, however, was given only in an advisory way, the nomination being left wholly with the people's party.

There was a good deal of talk of fusion on congressmen in the various districts, but the meeting decided to take no action on that matter, it being deemed best to leave fusion in the districts with the districts themselves.

Another meeting will be held shortly to arrange the details which were left incomplete at the meeting.

QUAY TO BE PROSECUTED.

Proceedings Will Be Instituted Against Him for the Illegal Use of State Funds.

Harrisburg, Pa., June 2.—Senator Rutan, of Pittsburg, was here to-day and said that he came to Harrisburg for a conference with the Attorney General, and that he proposes to institute legal proceedings against Senator Quay, ex-State Treasurer Boyer and Treasurer Morrison for alleged violations of law and illegal use of state funds.

WILL FIGHT IT OUT.

Governor Abbett to Break the Reading Combine.

Trenton, N. J., June 2.—The move against the Reading combine in the court of chancery, Tuesday, will prove an interesting one. Speaking on the matter yesterday, Gov. Abbett said: "I anticipate seeing the greatest legal contest the state of New Jersey has ever had.

"The law distinctly prohibits the consolidation of corporations, companies or individuals looking to the increase of prices, by and through such combinations, of the necessities of life. I know this monster combination can be broken.

PRESIDENT MONTT.

His First Message to the Chilean Congress.

He Favors Amnesty for the Balmacedists—Reciprocity and Immigration.

Valparaiso, June 2.—Congress was opened in Santiago yesterday. There was no disorder, but ample precautions had been taken to prevent any emeute, and this may have checked the malcontents. President Montt passed from the Moneda to congress hall with a large military escort.

In the beginning of his speech to congress President Montt briefly referred to the Baltimore affair.

He stated that documents would be presented showing what had taken place, and added that a settlement of the matter would be had through diplomatic channels in accord with international justice, and according to the past traditions of the two countries.

He lamented the attack and expressed regret at the circumstances which at one time threatened a rupture of friendly relations between the United States and Chili.

The president then outlined his policy. An amnesty law would be presented to congress in favor of Balmacedists, immigration would be favored, and he recommended reciprocity treaties with all the South American republics.

SPEAKS FOR ITSELF.

The Work of Drs. Copeland and Bell Needs No Bombastic Assertion.

The Results Speak for Themselves—Patients Who Contribute the Testimony—Nothing in Test But Professional Ability.

It is the practice of those who can gain fame in no other way to announce themselves as the greatest in their line of effort. Drs. Copeland and Bell do not do this. They let their work prove their ability. They publish from week to week the statements of enthusiastic patients who have been restored to health by them and they do not attempt to traduce rivals or abuse people whose competition they dread. It is needless to say that their work is scientifically done. Being specialists in nose, throat and lung diseases, they do not advertise vegetable remedies or magnetic compounds or nostrums that will work a cure on sight. They simply state that they are physicians who are skilled in their work and who can accomplish what they start out to do. A word to the wise is sufficient. If these statements do not convince there is no amount of assertion that can. They submit the testimonials and rest their case on the results, so substantially vouched for.

SORE THROAT AND COUGHING.

Three Years of Constant Suffering From Catarrh—Relief and Cure.

"My throat grew so bad it was difficult for me to talk distinctly, and I had a constant tickling sensation there, followed by a hacking cough."

How many victims of catarrh can say the same thing. This is the statement of Mr. Patrick Mahoney, who lives at the corner of Starr avenue and ———— street. He is an employe at Roth & Friedman's Knitting Mill.

"A severe cold and then other colds. This is the way it began. That was three years ago. My nose stopped up. There was a constant dripping of matter into my throat. Hawking and spitting almost constantly. Throat raw and sore. Coughing spells in the morning, raising a thick, tenacious mucus. Appetite poor, with indigestion. Sour stomach after meals. Food lay heavy on stomach. Bowels constipated.

"My throat grew so bad it was hard for me to talk distinctly. I had a tickling sensation there, followed by a hacking cough. I felt dull and stupid, and my work was a continual drag on me.

"A friend of mine told me he had been treated by Drs. Copeland and Bell. I went to them and placed myself under their treatment. From the time I did so I began to mend. By degrees my head was cleared; then my throat got well. Hawking and spitting stopped. The cough disappeared and now it bothers me little. I eat heartily and relish my food. My bowels are regular. I work with ease from morning till night. I sleep well and in fact I feel like a new man.

"This wonderful change has been wrought by Drs. Copeland and Bell. I give them this testimonial, hoping that everyone who is afflicted as I was will do as I did and be cured, for a cure is certain in the hands of these physicians.

AWFUL SUFFERING!

It Began Ten Years Ago—A Recital of Great Interest to Catarrhal Patients.

There are few people who could stand such suffering as Mr. James Crook, of Aloy street, West Toledo. Those who read his statement will be amazed. Said he:

"My trouble began about ten years ago. I suffered from repeated colds. My head stopped up and soon I found I could not breathe without fear of choking. Matter dropped into my throat and this caused me to choke also. There was so much of it I could not cough it loose or remove it in any way.

"I had headaches over my eyes and they were so bad at times that I was obliged to lie down. There was a scum in my throat a quarter of an inch thick. My throat would feel so bad at times that I would have to sip water to relieve it. A cough set in and it has been with me for three years. I would cough so hard, often, that I would vomit. I could not lie on my back for fear of smothering. I was ashamed to go into a barber shop, for my catarrh was so bad that I could myself detect the offensive odor.

"My chief trouble was shortness of breath, heart fluttering and dizziness. I often staggered and seemed about to fall. I had sharp, shooting pains, stabbing like a knife, around my heart.

"The catarrh affected my hearing and I became so deaf that I could not hear the sound of a hammer when I was coopering a barrel.

"My appetite was poor. I had great pains in my stomach when I ate, and after meals my stomach was sour and filled with gas, which caused belching and bloating. My bowels were very costive and I had cold feet all the time.

"Well, I placed myself, after much persuasion from my friends, in the hands of Drs. Copeland and Bell. I was a hard case, then, and do not believe that I could have lived much longer. I have been under the treatment of many physicians, but no one ever helped me as Drs. Copeland and Bell have. Now my headache is a thing of the past, my heart is stronger and troubles me no more. My appetite is good and I relish my food. My bowels are regular, the sore throat has disappeared and in fact I feel strong and well and am like a new man."

This statement is signed and is given to the public as the free, candid and voluntary affirmation of a gentleman who desires others to profit by his example.

TO BOOM THE CANAL

St. Louis Crowded With Delegates

Interested in the Nicaragua Project.

Congress to be Asked to Grant Large Sum to Aid in Completing the Work.

St. Louis, June 2.—The large music hall of the exposition building was crowded to-day with delegates appointed by the governors of nearly every state in the union to represent their respective commonwealths at the Nicaragua Canal convention.

This gathering owes its existence to the state of California in which a preliminary conference was held some months ago and the call issued for to-day's convention.

This call, which bore among others the names of Morris M. Estee, who was permanent chairman of the republican national convention at Chicago four years ago, and James G. Fair and Horace Davis, two multi-millionaires, met with a ready response from the various states.

The governor of New Hampshire appointed a delegation of eight, Governor Brown, of Kentucky, named delegates from every congressional district, and nearly every western state has a delegation larger than that requested in the call.

Among the delegates from Ohio are Ex-Speaker J. Warren Keifer and Hon. Amos Townsend.

The special object of the convention is the memorializing of congress on the question of a subsidy.

Resolutions will be adopted addressed to the national conventions of both parties, requesting them to incorporate in their platforms an indorsement of the canal, and the promise of both parties to aid in securing government aid for the project.

The resolutions will be submitted to the Minneapolis convention by Mr. Estee, and to the democratic convention at Chicago by Ex-Postmaster General Dickinson. The call for the convention, which was read at the opening of the proceedings this morning, is as follows: "If the American people would make water transportation between the eastern and western sides of the continent, a successful competitor to land transportation, the Nicaragua canal must be constructed, and it should be built by American capital and controlled by the American people. Commercially, nothing within the range of thought will accomplish so much for our country as the building of this great waterway.

"It will shorten the distance by sea between the two sides of our country about ten thousand miles, and from the Pacific coast to Europe about seven thousand miles.

"It will create greater commercial possibilities between the different sections of our country, and it will largely increase our trade facilities with all foreign countries. It will make a competing route for transportation by water which will neutralize the combinations of land transportation companies, and yet it will tend to increase the very business of the companies it competes with.

"It will make secure to this republic much of the commerce of the Pacific ocean now drifting into foreign channels. It will bind together by the ties of a common interest all of the states of the union. It will open the commerce of the Pacific with the valley of the Mississinpi.

"The Gulf states and the far west will feel the vitalizing forces of the new and better markets for the products of the soil, because cheaper transportation will increase prices and thus greatly benefit the interior and producing states of the union, while the north and east will grow strong under an increased demand for American shipping, and the manufacturing industries of these sections will be greatly benefitted by an improved home and foreign market.

"It will give renewed and stronger expression to an American policy of maintaining peace among nations by building up industries and creating trade and commerce. But, much more than this, the defense of the Pacific states in time of war should demand the thoughtful and patriotic consideration of the whole country.

"The Pacific coast industries are now so large and varied, the population of that part of the union so sparse, the distance around Cape Horn by sea so great, the long time required to reach there by water, the increasing needs of that part of the American union, all point to and make necessary, as a matter of national safety, the building of the Nicaragua canal."

A statement prepared for the information of the convention says that the work of the Canal Construction company is progressing beyond all expectations. A large number of millionaires have interested themselves in the scheme, both with their money and with their influence as a result of the efforts of Ex-Senator Warner Miller.

The work on the canal was commenced in May, 1889, and one mile of it is now in actual operation. The clearing of the canal line of timber has been completed, and eleven miles of railroad is in operating order, and over three thousand people are employed on the work. It was originally thought that the cost of the project would be about sixty-five million dollars, but the indications now are that fully double that amount will have been expended before the work is completed.

VALUATION UP

And Taxation Down—Good News for St. Louis.

St. Louis, Mo., June 2.—Many conflicting reports have gone out here as to the damage done by the floods, estimates as high as $11,000,000 having been given.

Now that the water is receding it is evident that so far as the city of St. Louis is concerned the loss will be nominal.

The expense that will have to be incurred by the municipal government is so trifling that the city comptroller has not deemed it necesary to make allowance for it in his estimates, and acting on his recommendation the municipal assembly has reduced the tax rate from 50 to 40 cents.

There is much rejoicing in the city over this unexpected action, which is the more surprising as the city is erecting new water works, and a new city hall, costing altogether about $8,000,000, and an increase in taxation was feared in consequence. The reduction is the result of an enormous increase in the assessed valuation in the city.

BRYAN NOTES.

Bryan, O., June 2.—The funeral services of A. J. Tressler took place yesterday from his late residence, Rev. Thos. Doggett officiating.

Frank Gleason, Toledo, Sundayed at Bryan.

Fred Locke's consolidated show will exhibit in Bryan Friday and Saturday.

Fred Moore is confined to the house by a sprained limb.

BRILLIANT WEDDING.

New York, June 2.—One of the most brilliant of the many recent fashionable weddings was that of Miss Mary Talmage Trevor, daughter of the late John B. Trevor, and Grenville Winthrop, son of Robert Winthrop, of the extensive banking firm of this city. The bride is one of the wealthiest young women in the United States. The ceremony was solemnized at high noon in St. John's church at Yonkers-on-Hudson, and was witnessed by a large company, four hundred New Yorkers having arrived on a special train from that city. Subsequently there was a reception at Glenview, the country home of the bride's parents.

REV. DR. FISH

Springs a "Pome" on the Sunday School Convention.

Closing Meeting of the Body—Resolutions Against Sabbath Desecration—The Police Get a Knock.

There was a good attendance at the closing session of the annual convention of the Lucas County Sunday School union, last night, at the First Presbyterian church. The program was opened with devotional exercises, conducted by Rev. T. S. Buckingham. J. J. Freeman led a discussion on "Common Sense in the Sunday School" which was full of good points.

Rev. A. J. Fish then delivered an address on "Horses and Riders," every word of which was listened to with interest and appreciation. The sentiment of his talk was as follows: "I will give unto thee 2,000 horses if thou shalt be able on thy part to put riders upon them." What would horses be worth without riders? And what would the Sunday school be worth without workers? God gives largely where his gifts are needed and can be utilized. The Sunday school is one of God's horses, and if we can direct it it will be a blessing to all. God's gifts are contingent upon two facts; first, we need them, and, second, we take their crude forms and complete them. Wherever the vine, the cherry or the apple grows you will find traces of civilization, because there has been a cultivation of God's gift. The Sunday school will be just what you make it, but friends, don't be too late, like our Toledo policemen, and come in at the eighth inning. The doctor read the following poem about Joe Beal, who was considered as being sharp and bright, but did not make use of his talents, and compared him to John Rowland, who through adversity, had, on account of his ambition, mounted the horse and taken the bridle in his hands and made a success of life:

Joe Beal would sit upon a keg
Down at the store and throw
One leg upon another leg,
And swear he'd never had no show.
Oh, no, said Joe,
Han't had no show.
Then he'd shift his quid to t'other jaw,
And chaw, and chaw, and chaw, and chaw.

He said he'd got no start in life,
Didn't get no money from his dad;
The washing took in by his wife,
Earned all the funds Joe ever had.
Oh, no, said Joe,
Han't had no show.
There he stuck like mucilage to the spot,
And sot, and sot, and sot, and sot.

At the afternoon session the following executive committee was appointed: H. L. Phelps, E. M. Beard, C. J. Cannon, W. A. Whitney, Sylvania; Mrs. W. Powlesland, Alexis, and Rev. Ross.

The following resolutions, reported by Dr. McGaw, A. R. Crittenden and Rev. O. P. Ross, were adopted:

That the great importance of the Sunday school work demand of all the members of the church the most hearty and liberal support.

That the highest success in this work can only be attained by cordial co-operation on the part of pastors, superintendents, teachers and scholars, each doing heartily the work that properly belongs to each.

That instruction should be persistently and patiently given in all our Sunday schools on the subject of temperance, to the end that the rising generation may grow up sober and temperate and decidedly opposed to the saloon and the drink traffic as the deadly foe of all the best interests of society.

Inasmuch as the proper observance of the Lord's day as a day of rest from toil and as a day given by the Creator to man to be devoted especially to the culture of his moral and spiritual nature, is necessary to the highest welfare of individuals and of society, we earnestly protest against the disposition to manifest in some places to convert the holy day into a mere holiday. Experience has shown that where the day is observed according to the commandment "Remember the Sabbath day to keep it holy," there the toiling multitudes enjoy the largest measure of rest; and where it is made a day of amusement and pleasure-seeking it becomes a day of toil for a large number of men and women.

That this association is in hearty accord with the efforts of the law-abiding citizens of Toledo to put a stop to the playing of Sunday base ball and other violations of the laws of God and man pertaining to the day of rest.

That we learn with pleasure of the numerous Sunday school classes in this county, and commend the work and course adopted by the state association to every Sunday school teacher and Christian.

HONDURAS IN A FERMENT.

An Abortive Attempt to Throw Over Leiva's Government.

New Orleans, June 2.—For several days there have been rumors here of an insurrection in Spanish Honduras. Today the news was received that the insurrectionists had made an attack upon San Pedro, the inland terminus of the railroad from Puerto Cortez, and had, after some trouble, been repulsed and 40 of their number captured and taken to the capital, Tegucigalpa, and that an attack had also been made upon Puerto Cortez, which had resulted in the death of a man from each side and the subsequent routing of the invaders.

Hondurans are being pressed into service along the coast, and the very meagre advices received here are to the effect that the insurrection will be quelled without much trouble or loss of life.

The insurrection is based upon an attempt to overthrow the government of President Leiva, and is said to have been originated by a lawyer of Tegucigalpa, who is now at the head of the insurrectionists.

San Francisco, June 2.—Physicians have examined Bill Murphy, the New Zealander, and Johnny Murphy, of Boston, who fought a draw of 40 rounds at the Pacific cub. The doctors find that Billy Murphy had his right hand broken, while the Bostonian has a sprained wrist. The contest, which was to go on again to-night, has accordingly been postponed for a week to enable the men to get into condition.

—::—::—

Terre Haute, Ind., June 2.—The Terre Haute Trotting association has decided to declare off the spring races, which were set for next week. The reason is the bad weather, which has prevented the trainers getting their horses in order.

—::—::—

Deadwood, S. D., June 2.—Hanner and Hogan, two local middleweights, fought 23 rounds near here in the presence of about sixty sports. The fight was with bare knuckles for a purse of $100, and was won by Hanner, who gave Hogan a severe punishing.

VERDICT FOR THE PLAINTIFF.

Louis Barfield Gets $833 for a Finger.

The jury in the case of Louis Barfield against the Ketcham Furniture company, this morning, returned a verdict of $833 for the plaintiff.

It was an action to recover $10,000 damages for personal injury. Barfield was employed by the Ketcham Furniture company and had a finger cut off in a machine.

THIS MORNING'S FIRE.

A Saloon on Lafayette Street in a Blaze.

At 1:40 o'clock this morning fire broke out in the frame building 302 Lafayette street, owned by Mr. Skelly and occupied by Sam Cohn. About $100 worth of damage was done before the department extinguished the flames.

There was another alarm of fire this morning, but it proved a false alarm.

MAY WEATHER

As Noted by the Meteorological Department.

The meteorological summary for the month of May gives the following figures on Toledo weather: Mean barometer 29.969, mean temperature 56.4 degrees, highest temperature 83 on the 31st, lowest temperature 37 on the 8th, prevailing direction of the wind, west, with a total movement of 8,429 miles, total precipitation 7.42 inches and there was not one cloudless day during the month.

STILL IT GOES.

Another Block of Toledo Business Property Sold.

Big real estate sales are an every day occurrence these times.

Ira A. Richardson & Son, represneting an eastern estate, last evening sold to several Toledo parties lot 579, Port Lawrence division, for which $9,500 was paid.

The lot is 100 feet wide and 100 feet long, located on the westerly corner of Monroe and Tenth streets. This property will be improved during the summer.

DETECTIVE MANLEY

Goes to Work at Once and With a Vim.

To-day Detective John Manley assumes the superintendency of the McNamar watch system. The system will be enlarged and improved. Patrons will be protected both day and night, and offenders will be run down and prosecuted. Detective Manley knows every crook in the business, and under his careful eye the person who gets away with anything will have to sharpen his intellect.

WOOLSON CORNER STONE

Laid in Proper Form—Work Will Now Proceed.

The corner stone of the new building being erected on Huron street by the Woolson Spice company, was laid this morning and in it was placed a box containing records of the firm, photographs of the factory buildings and besides other printed matter, copies of the Toledo papers.

Contractor Neukom made the only speech of the occasion, remarking that he regreted that the event was not a week later, so that the papers might have contained an account of the nomination of James G. Blaine for president.

HE WILL PROBABLY DIE.

Harry James, the Englishman Who Took Morphine.

Harry, James, who attempted suicide yesterday at Kelly's lodging house on St. Clair street, is still living, but it is thought he will die. He took morphine. The following letter was found on his person:

"Dear Sir—I am sick and crippled by paralysis; destitute, with no friends to help. Can you please give me a little assistance—William Weiers. I have no place to stay to-night—have not eat today. I am tired living—no friends nor money. Mrs. Taylor, 166 Lewisham road, London, England, is my mother."

AN ENERGETIC THIEF.

He Stole Anything He Could Lift, No Matter What it Was.

Some men are very careful what they appropriate and have a refined manner of stealing, selecting only the crem de la crem of the things that come their way. Then there is a class that steal anything when the power gets hold of them—anything that they can lift or drag. Wm. Marx is one of the latter class. He was in police court this morning for stealing 60 feet of iron chain from the Smith Bridge company and 14 ice hooks and an awl from the Findlay Brewing company. He is probably a relative of the man who stole a carpet from the Burnett house last fall. For the two jobs William was given $50 and costs and 50 days in the workhouse.

LONG AND LIVELY

Meeting of the Members of the Builders' Exchange.

The members of the Builders' Exchange held a meeting last night, the first that has been held in two weeks, consequently there was considerable business to transact. The session lasted until 11 o'clock; the attendance was large, and the discussions animated, but the business done was not of public interest.

The members were made the recipients of a beautiful mail box, of sixteenth century oak and plate glass, having 27 boxes. It was presented by Maclaren & Sprague, and besides being a "thing of beauty," will be very useful, as the members receive their mail at the Exchange rooms. A vote of thanks was tendered Messrs. Maclaren & Sprague for the handsome present.

A SALOONKEEPER IN COURT.

Catherine Parker Sues Michael Fitzgerald for Selling Her Husband Liquor Against Orders.

Catherine Parker filed action in Common Pleas court to-day against Michael Fitzgerald and Otis A. Browning to recover $5,000 damages.

The plaintiff sets up in her petition that she notified Michael Fitzgerald, who keeps a saloon, not to sell her husband William B. Parker, any intoxicating liquor. She alleges that her husband earned $80 a month, which he spends in the saloon instead of maintaining his family, and further that Fitzgerald willfully and knowingly sold the plaintiff's husband intoxicants, while the notice was in full force.

O. A. Browning is made party defendant because he owns the building occupied by the saloon.

TALKING IT OVER.

Park Commissioners And Council Park Committee Meet.

The park commissioners met last evening with the council committee on parks, at the office of Commissioner Potter, for reviewing the situation and securing the views of the committee on the park question. President Walbridge explained to the council committee what the park board had been considering, and defined some of the plans they had in mind. His remarks met with the hearty approval of the councilmen present, and they promised their co-operation in furthering the work of the board.

The park commissioners will during the summer months decide on some definite plan of procedure. They appreciate the fact that the result of their deliberations will stand for all time, and that they should look well before taking decisive steps.

THE FANCHON AT HOME.

She Represented Toledo and Won a Prize.

The yacht Fanchon has returned from Detroit, where she took part in the Memorial day races and captured the special prize. Commodore Bills says the regatta was one of the nicest yachting events he ever attended, fully a hundred boats being under sail, and fifty of them entered in the races. The course was abreast of the city. The Fanchon behaved splendidly and but for the carrying away of some gear, would have done much better than she did. The Shamrock, the commodore says, showed splendid speed.

On the return trip the Fanchon was struck by the storm that passed over Toledo Tuesday afternoon. The squall struck her the other side of Monroe and made things lively for a time, but a yacht well handled is as safe as a steamboat, and the gale was weathered.

The Fanchon's performance in Detroit will be a delight to many people in this city who have always admired her work.

IN LABOR CIRCLES.

New Union to be Organized—Meetings Last Night.

THE FUNERAL

Of the Late Dr. Jones—A Large Concourse of People Present.

At Memorial hall throngs of people have been quietly coming and going all the morning, as they sadly and reverently paid their last tribute of affection and respect to the late Dr. Jones. The floral pieces were magnificent. The gas trustees presented a beautiful column of carnations and Marechal Niel roses, and many other pieces were of equal beauty. Roses, carnations and smilax predominated in this profusion of flowers and foliage, and their fragrance and beauty seemed to rob death of its sting. Albert Hassenzahl, William Watson, Frank Scott and Chas. Brookly were the officers on duty.

At 2 o'clock the funeral service began. Dr. H. M. Bacon delivering the funeral oration, and was followed by Dr. S. F. Forbes, who paid a touching tribute to his old friend. The pall bearers and honorary escort have already been given in the Bee. The funeral was one of the largest ever seen in Toledo.

A HAPPY EVENT.

In Honor of Mr. and Mrs. Dudley Caughling.

One of the prettiest wedding parties imaginable was that of last evening at the residence of Mr. and Mrs. Bert St. John for Miss Allie Sullivan and Mr. Dudley Caughling, who, as already mentioned in the Bee, were yesterday united in marriage. The old-fashioned home—large, roomy and pleasant, wore its floral garlands with a simple dignity and charm that only use and association can bring. A mirror mantel in the dining room was banked with snow balls in profusion. On the sideboard were bowls of pansies and delicate, fragrant roses. From the chandelier depended long links of smilax to the corners of the center table. Maiden hair ferns were the cloth decorations. A large bouquet of purple fleur de lis, with their blade-like leaves, was a center piece for one side table. The embroidered damask and the china were in harmony for color. Another side table carried out the rose idea. One in an alcove, for the young people, was in pink, carnations being the flowers. Roses were the principal flowers in the parlors, massed in bowls large and small, on tables, brackets and mantel. Mrs. C. J. Woolley with Mrs. St. John did the floral part, and there was evidence of exquisite taste in every touch. Mrs. Woolley also has credit for making the delicious fruit punch so much appreciated. Among the guests were Mr. and Mrs. C. J. Woolley, Mr. and Mrs. W. J. St. John, Mrs. L. M. Burbank, Mrs. E. C. Tompkins, Mr. Miller and Miss Miller, Miss Nellie Olewine of Grand Rapids, Mich., Mr. Waite St. John, Miss Helen St. John, Miss Manna Andrews, Mr. Will Stackhouse, Mr. Walter Woolley, Mr. Frank Caughling and Mr. Guerney.

At eight, the carriage came with the bride and groom, the bride's maid, Miss Andrews, and the groom's best man, his brother, Mr. Frank Caughling. The bride was very lovely in a gown of cream white crepe de chine, made with the late Russian effect, with which was worn a handsome filagree gold girdle. She carried a bouquet of white roses. Congratulations over, a lively evening of music, chat and promenade was enjoyed. Dainty refreshments were served, and laden with good wishes, showered with rice and dodging good-luck old slippers, the happy couple departed for their new home, 704 Erie, corner of Walnut, fitted up ready to receive them, thus following the sensible fashion very much in vogue in Toledo. The Bee adds its best wishes for abundant prosperity.

W. J. COLBURN

Was Honored With the Election by Acclamation,

But Other Candidates Had a Rocky Road

To Travel for the Second Delegateship to Chicago at the Ninth District Convention To-day—Good Feeling Prevailed.

The district democratic convention at Druid hall to-day was, in point of order, harmony and enthusiasm, a counterpart of yesterday's. The name of Cleveland in the resolutions was greeted with cheers, and it was evident that nothing but Cleveland would go with the convention.

The election of W. J. Colburn to the Chicago convention was, as anticipated, made by acclamation. The election of an outside delegate was a more difficult task. Werden of Fulton appeared to be the choice of the Lucas delegation, but he needed 36 of Lucas' 42 votes to nominate him.

Cole was an early favorite with Lucas, but his strength failed to materialize on the first vote as expected.

There was no wrangling, however, and the ballots were taken without a hitch or a harsh word. It was realized that all the candidates were first-class men, but it was naturally difficult to make a selection from such a trio of excellent timber.

W. J. Colburn, chairman of the district committee called the convention to order, and in a few words introduced Hon. J. W. Canary, of Wood county, as temporary chairman.

Mr. Canary, on taking the chair, thanked the convention. He said he was grateful for the honor, but as it was late he was not going to make a speech.

J. C. Bollmyer, of Fulton, was nominated for secretary, with the representatives of the democratic press as assistant secretaries.

Mr. M. M. Eppstein moved and it was carried that each county select a member for the committees on credentials, rules and order of business, permanent organization and resolutions.

Following are the committees:

On credentials—Fulton, James Kahle; Lucas, J. S. Harbeck, Jr.; Wood, J. M. Easley; Ottawa, J. H. Kramer.

On rules—Fulton, A. W. McConnell; Lucas, J. H. Pheatt; Wood, J. A. Holmes; Ottawa, E. A. Howard.

Resoutions—Fulton, Daniel Dowling; Lucas, M. M. Eppstein; Ottawa, J. P. Rafferty; Wood, Daniel Mears.

A recess of 15 minutes was taken to allow the committees to report.

The committee on credentials reported no contests.

The committee on rules and permanent organization reported that the rules governing legislative bodies prevail, and that the temporary organization be made permanent. The committee recommended that the delegates to the Chicago convention be elected separately and the call of counties be made alphabetically adopted.

Mr. Eppstein, from the committee on resolutions, reported the following resolutions, which were greeted with applause and adopted without a dissenting vote:

Resolved, By the democracy of the Ninth congressional district assembled in convention:

1. That the cardinal principle of tariff for revenue only constitutes the logical issue upon which the democratic party must make its campaign this year, and in this faith the democracy of the Ninth district reaffirms its steadfast belief.

2. That the logical candidate of the party in this year of national contest is Grover Cleveland, who bravely and patriotically made the issue of tariff reform the prominent question of American politics.

3. We pledge the hearty support of our party in this district to the candidate of the Chicago convention, and deprecate any contention that threatens trouble and dissension.

When the matter of selecting delegates to the Chicago convention came up, Mr. John Bolan moved that the vote of Lucas county be taken last.

A vote was taken and Chairman Canary said he could not decide.

A rising vote was being taken, when Mr. Bolan withdrew his resolution.

It was on motion decided to present candidates on the roll call of counties.

Mr. L. G. Richardson moved that the rules be suspended and Lucas county be called first. Carried.

A motion to elect the outside delegation —granting Lucas one—was made, but not pressed.

Mr. Richardson presented the name of Mr. W. J. Colburn, of Lucas, and he was elected by acclamation.

Upon being called for a speech Mr. Colburn thanked the convention and said he hoped his vote at the Chicago convention would be satisfactory.

Frank Isbell, of Fulton, in a happy speech, presented the name of Chas. E. Werden, of Fulton.

Ottawa nominated, through Mr. W. H. Mylander, Hon. Wm. Habbeler. Mr. Mylander made a brief speech in which he endeavored to show Ottawa's right to a delegate.

Frank Baldwin, of Wood, made a good speech in presenting the name of Hon. L. C. Cole. Wood county, he said, had never been honored with a national delegate. He spoke of Mr. Cole as a loyal democrat, well qualified for the office.

On motion it was decided that the elections of alternate and an elector follow the election of delegates. The first vote resulted:

	Worden.	Cole.	Habbeler.
Fulton	9	..	..
Lucas	24	10	8
Ottawa	..	..	15
Wood	..	23	..
Total	33	33	23

There was no choice and a second ballot was taken with the following result, Lucas county casting her vote last by consent:

	Worden.	Cole.	Habbeler.
Fulton	9	..	..
Ottawa	..	..	15
Wood	..	23	..
Lucas	29	5	8
Total	38	28	23

It required 45 votes to elect, and so there was no choice.

Third ballot:

	Worden.	Cole.	Habbeler.
Fulton	9	..	..
Ottawa	..	..	15
Wood	..	23	..
Lucas	29	5	8
Total	38	28	23

A motion to adjourn to 4 o'clock was almost unanamously voted down.

Mr. Eppstein called attention to the fact that the funeral of Dr. Jones occurred at 2 o'clock. He appealed to the convention to adjourn out of honor to the deceased. He moved to adjourn. Lost.

The fourth ballot showed no change, and there was no choice.

A motion to adjourn to 3:30 was defeated.

The fifth ballot made no choice.

A recess was taken to allow the Lucas delegation to consult, and on their return the sixth ballot was taken as follows:

	Worden.	Cole.	Habbeler.
Fulton	9	..	..
Ottawa	..	..	15
Wood	..	23	..
Lucas	21	9	12
Total	30	32	27

The seventh ballot was the same.

The eighth ballot was without result.

The ninth ballot resulted in a slight break.

	Werden.	Cole.	Habbeler.
Fulton	9	....	....
Ottawa	....	....	....
Wood	....	23	....
Lucas	26 8-42	14 4-42	16 30-42
Total	26 8-42	37 4-42	16 30-42

The tenth ballot was the same, and the Lucas delegation retired for consultation.

The convention was in session when the Bee went to press.

The Delegates.

The delegates in attendance were:

Wood—O. Sanglier, Jesse Hager, S. W. Nigh, B. J. Leathers, J. N. Easley, Jno. Troxel, S. N. Smith, W. C. Bryant, Tim Hayes, George Wittman, Jas. Peoples, D. C. Bemis, T. N. Bierly, E. A. Balmer, O. A. Diver, R. B. Andrus, L. C. Potter, M. Jamison, D. Mears, jr., J. A. Holmes, Jno. O'Leary, Fred Heater, Wm. Elder.

Fulton—A. W. McConnell, G. R. Betts, M. Marzloff, Dr. J. O. Allen, James Kahle, Charles Hinkle, Frank I. Isbell, Adam Mohr, Frank Pilliod.

Ottawa—N. R. Webster, A. A. Hoffinger, S. N. Winters, G. P. Rafferty, W. H. Milander, R. B. Sonscrant, J. H. Kramer, E. A. Powers, J. D. Uncapher, Jonas Peart, A. Hoover, J. J. Clark, J. D. McClutchy, F. S. Heller, Frank Brown.

Lucas—T. J. Dowling, Curtis Johnson, John A. McLaughlin, M. M. Eppstein, Joseph Fournier, Fred Wagenknecht, James H. Pheatt, John S. Harbeck, jr., Harry S. Dowling, r. A. Allen, J. A. Steinman, William Bretch, Gottlieb Scherlitz, P. Farrell, A. Mertz, J. E. Sullivan, O. A. Browning, W. J. Gill, M. E. Donahue, Wm. Rogers, R. Haley, Louis A. Young, L. G. Richardson, John J. Murphy, J. F. Dawson, George Jackson, A. T. Colburn, James Horan, John Bolan, G. Milbrat, J. Holland, F. L. Weaver, John King, J. H. McGuire, C. H. Kamper, J. L. Zoeller, James L. Stratton, Charles R. Swain, O. W. Ballou, Nathan Gardner, Foster R. Warren.

Notes.

It was harmony from the word go.

John Bolan worked hard for Werden.

Frank Baldwin made the speech of the day.

Judge Lorenz was one of the active participants.

Harry Dowling has developed into a genuine hustler.

Chairman Canary made an excellent presiding officer.

The outside counties were given both chairman and secretary.

Cole had many staunch friends in the Lucas county delegation.

Byron Ritchie was a looker-on in Venice, but a worker as well.

Col. W. A. Taylor, of the Enquirer, occupied a seat on the platform.

Secretary Bollmyer did not want the office, but had to ascend the dais.

Foster Warren labored diligently for his old-time friend, William Habbeler.

Col. M. P. Brewer, of the Bowling Green Sentinel, was in the thickest of the fight.

Louis Richardson was chairman and Jim Pheatt secretary of the Lucas delegation.

The Third ward cuts quite a swath, even if it don't pile up a big democratic majority.

Mr. H. S. Chapin, of the Wood County Democrat, was in the crowd pleading for Cole votes.

If Habbeller had made the hustle that the others did he would have got there on the first ballot.

The convention developed into one of endurance. Consultations were frequent, but they did not seem to bring order out of chaos.

N. R. Webster, of Port Clinton, and J. H. Kramer, of Oak Harbor, held up Ottawa county's end among the newspaper men.

GLASS WORKS BURNED.

Destructive Blaze Reported Near Pittsburg.

Pittsburg, June 2.—Word has just reached the city that the Creighton plate glass works, located at Tarentum station, 22 miles from Pittsburg on the West Pennsylvania railway, was entirely destroyed by fire this morning.

The fire started at 3 o'clock in the mixing department by an explosion of chemicals, and quickly destroyed the mixing department, the pot house and the carpenter shop, together with their valuable contents.

The buildings destroyed covered about an acre and were the buildings from which all the materials and appliances of the factory came. The destruction of these will necessitate the closing down of the works for at least one month and will cause idleness to 1,000 skilled workmen. The loss is estimated at $60,000, insurance $40,000.

TELEPHONE SUIT.

Boston, June 1.—An important decision, adverse to the American Bell Telephone company, was rendered to-day by United States Judge Colt in favor of the Western Union Telegraph company. The suit was for one-fifth of the capital stock of numerous corporations operating telephones throughout the United States. The gross amount claimed by the telegraph company is about $12,000,000.

DROWNED IN THE FLOOD.

Des Moines, Ia., June 1.—Clarence G. Wilson, of Burlington, superintendent of the Iowa lines of the C., B. & Q. railroad, was washed from the track at Dudley, Wapello county, at 9 o'clock last night by a sudden wave in the Des Moines river, and drowned. The body has not yet been recovered.

PENSION FRAUDS.

Washington, June 2.—The census investigation committee continued its inquiry today. Miss Ida Creagan, a clerk in the bureau, testified that she had paid $25 to a relative of Chief Clerk Childs to be retained after her three months term expired. The money was returned, however, as Miss Creagan was not retained.

The occasion was a delightful one.

The residence of the bride's parents on Hamilton street, last evening, was filled with friends to witness the marriage ceremony of Miss Maggie C., daughter of Mr. and Mrs. A. Casper, to Louis Nehl. The event occurred at 7:30, and was a pretty affair. Mr. O. Hensler was best man and Miss Ida Casper bridesmaid. The reception following lasted some hours, numerous presents were left as mementos of the occasion. Best wishes of a large circle of admirers will be with the couple for a pleasant jouney through life.

A very elegant wedding occurred last night at Trinity church when Miss Alice Couldwell was united in marriage to Mr. Harrison H. Eaton, of Detroit. The nuptial knot was tied at 7:30 o'clock by Rev. Charles Scadding. Miss Nellie Couldwell, prettily attired in pink, was maid of honor, and Mr. Sidney Eaton, of Monroe, Mich., was best man. The bride was charming in white silk and lace. The ushers were: A. C. Schnetzler, Dr. S. S. Harvey, Frank Collins, and W. G. Phillips. After the ceremony a large reception was held at the home of the bride's parents, Mr. and Mrs. A. B. Couldwell. The house was artistically decorated for the occasion. Among the guests were: Mr. and Mrs. Harvey, Mr. and Mrs. Higginbottom, Mr. and Mrs. Frank Watcher, Capt. and Mrs. Webb, of Monroe, Mich.; Mrs. Eaton, of Monroe; and the Misses Hattie Dustin, Louise Phillips, Kittie Machen, Maud Parks, and Messrs. J. Cuddeback, Ed Kirk, Chas. Eaton, of Monroe, and many others. Mr. and Mrs. Eaton were the recipients of a large number of beautiful presents. They left last night for an extended trip and will make Detroit their future home.

A Good Doctor

MOTHER—NONE BETTER. See what she has in her favor. She's on the spot, she sees the first symptoms; she has sympathy. The little sufferer is bone of her bone and flesh of her flesh. Good points, every one. Add another—the right remedy—and you have as much certainty as can be had in this world that Baby will recover. Dr. Hand has provided the remedy. In Pennsylvania, where he is best known, almost every mother will testify to this. Happy, healthy children is the evidence they offer.

A little Book, illustrated, full of sense and suggestion, will tell you more of Dr. Hand's work and his remedies. Any Mother can have the book sent to her *free*. Address

Big drop in corn prices. What is that tax law doing for the farmers?

In the Fifth district the democrats send one Cleveland delegate and one anti to the Chicago convention.

A Chattanooga judge comes in under the wire a length ahead: He disposed of 111 divorce cases in 150 minutes.

John C. New says Mr. Blaine is not in the contest. What Mr. New knew, may not be what some other men know, now.

Not only is there a Blaine and Harrison faction; there is also a Wanamaker and Roosevelt faction, and they are not much relation to each other.

A number of European countries have accepted the invitation of this government to a monetary conference chiefly for consideration of the silver problem. And Mr. Sherman says the silver problem "is a local measure."

For the democracy of Lucas county the Bee thanks the other counties of the Ninth district for their grateful support of Mr. W. J. Colburn for delegate to the Chicago convention. Mr. Colburn is a zealous, hard working democrat and this recognition is fully appreciated.

The renomination of Congressman Donovan by the democracy of the Fifth district is creditable to the district and honorable to the candidate. There was a little feeling of resentment because Mr. Donovan dodged the vote on the silver bill, but the boys overlooked that and agreed to whoop 'em up again for Denny.

If we had not come to expect these things of the republican party, and if the national conscience had not become callous under repeated violations, the spectacle of the army of office-holders—ministers from over sea, secretaries, clerks, commissioners, postmasters and all—hustling to re-elect the man who gave them the office and for the sole object of hanging on to that office, or getting another—such a spectacle would shame the country and bury in disgrace the administration that makes it possible.

An exchange says,

"If the democratic party possessed the full courage of its iniquity it would certainly nominate Hill."

This is as a republican sees it. And in this is foreshadowed a difference between the parties; the republican party has the "courage of its iniquity" every time. President Harrison had the courage of its iniquity when he placed contributor Wanamaker in his cabinet; and Judge Woods on the United States bench, and when he keeps Commissioner Raum in office, smirched as he is with official corruption and dishonesty. Oh yes; the republican party has the courage of its iniquity—on all occasions. The phrase is a good one.

Who ays it Ain't

A special to a large syndicate of republican organs tells the public that one year's operation of the 55 per cent tax on flax has made it possible for $20,000,000 worth of flax products to be manufactured in this country. The amount is put at twenty millions because that is the amount of such goods imported last year. It is also said that "with the aid of American ingenuity and machinery" we will soon begin to import these products. All the English and Scotch firms that amount to anything in the business are moved and moving over to this country and putting in improved machinery manufactured here. According to these reports from a bureau of information directly under the fostering care of the tax-law makers, the industry has already outgrown its infancy, being on the eve of sending out its manufactures into the world's markets. These foreign firms being located here at great expense (evidently they expect the tax-law to do big things for them in the way of reimbursement), and with this country in the lead, will the 55 per cent tax be removed?

Then will the foreign firms pack up their traps and go home again? What tempts them here, when "protection to labor" compels a high wage schedule and "reduces the prices of goods to consumers?" Odd, isn't it? It must be to take advantage of the privilege this law gives them, of making one schedule of prices for Americans and another and lower one for European markets; for the privilege regulating prices.

Commissioner Wright's report shows that factories are closed months in this country because of "over-production," while there are men at work every day in like places in France and England earning more in a year than is possible in America. This may be another temptation to the capitalist. With this showing, the raisers of corn and wheat, the mechanics, day laborers, and professional people should all be willing to chip in and help on the flax business for these foreigners, come to bleed us.

Chicago is now reaching out after the finest military band in the United States. It has captured Professor Sousa, leader of the Washington Marine band, much to the chagrin of the Washingtonians. He will go to Chicago at once to organize the great band that is contemplated. His contract is for five years, $6,000 salary and a constantly increasing share of the profits.

New York city has raised the $350,000 needed to complete the Grant monument. There will be a vacant spot in metropolitan newspaper literature at first.

THE PRIEST LOST.

Rome Declared That Bishop Hogan Was Right.

St. Louis, June 2.—The widely-known and bitterly fought contest between Father Hynes, of Pierce City, Mo., and Bishop Hogan, of Kansas City, has at last been determined against the priest.

Private information comes from Rome that the Holy See, after carefully listening to and considering the merits of the appeal, had decided in the prelate's favor.

Father Hynes' conduct of his parish in various respects was not satisfactory to Bishop Hogan, and after several requests were disobeyed, the priest was unfrocked.

He appealed to Archbishop Kenrick, and after vainly trying to regain possession of his church he went to Rome.

WILL NEED GOOD BACKING.

Springfield, Mo., June 2.—The Springfield Daily Republican made its first appearance this morning. It is to be an aggressive republican campaign organ and is published by a joint stock company.

FUNNY POLITICS.

Gus Smith Goes to Sherman for a Mess of Pottage.

Secret of the Free Employment Office Deal—What the Other Candidates Have to Say.

It is singular how the office of free employment suprintendent could have raised such a row. There is blood on the moon, and the treachery of the postoffice people will not soon be forgotten.

The full details wold make mighty interesting reading.

To begin with Gus Smith. The new appointee was one of the Foraker howlers who attempted to run things here with Voit and others. In some mysterious way he got on the delegation from the Eighth ward to the recent republican county convention at Druid hall, and when the postoffice people got in a hole over the Bonner-Kurtz row, Smith entered into a dicker whereby he was to support the postoffice interests on condition that the postoffice supported him for the free employment office. It was a clear-cut shake-down.

In face of the fact that the postoffice had already indorsed Fred Raitz, the manipulation of the local republican switchboard deliberately threw Raitz overboard. Fred won't soon forget the treatment.

"The trouble was principally," said Mr. Raitz to a Bee, that I am a native of the soil, and a Toledoan by birth. Then I am not in the market with a vote to sell to the highest bidder. I won't forget this piece of treachery very soon."

Capt. Kissinger, one of the squarest republicans in Toledo, was a candidate, but the fact that he was square barred him out.

"How is it, Captain, that you failed to get the appointment?" a Bee asked him last night.

"Oh, I was too long in the army, and I fought under the wrong flag," he replied warmly. "If I had been a non-resident and a rebel I might have had some chance."

"What are Smith's qualifications?" a Bee asked a member of the Central Labor union last evening.

"None that we know of. He came here from God knows where a few years ago, started a saloon, and failing in that started at job carpentering. He was a dead failure at that. He got it because he had a vote in convention when needed, and disposed of it to his present advantage. That's all."

At a general talk among some democratic members of the council it was decided either to abolish the office or reduce the salary to $25 a year.

It may be discovered by the manoeuverers in this deal that it pays to play square even in as dirty a game as some of the local republican politicians are attempting to play just now.

THEY GOT EVEN.

Eight Passengers on a Consolidated Car.

They Appear in Police Court and Testify Against Drayman F. W. Kohne, Who Delayed a Car.

Most people will stand anything but a delay on a street car. When they pay five cents to go to any locality they feel swindled if they don't get there at a more rapid pace than a slow walk. Thus it is that the wrath of a number of well-known Toledoans was worked up to such a degree over the delay of a street car Saturday last, that they appeared in police court this morning to help to convict the object of their wrath.

The witnesses in question were Dr. Skells, Miss Maud Thomas, T. H. Deardorf, Miss Gertie Brown, Miss Mary Cochran, George H. Bradt, W. H. Stocking and J. W. Hahn. They were passengers on a Consolidated car Saturday last and were bound for the Union depot.

Fred. W. Kohne, jr., a drayman, got in front of the car with his dray and refused to budge until he got ready. The train time approached and the passengers, and Conductor Dugan grew impatient. Finally there were some hot words between the street car men and the drayman and both boiled within. At last the eruption came. Kohne grabbed his whip and started in to lick the conductor, motor man, and all the passengers. He broke the car window with his whip, and the flying glass cut Miss Gertie Brown, of East Toledo, badly about the face.

At last, when the trouble had subsided and the car reached the depot the train had departed.

The passengers who were thus detained gleefully went into police court this morning to get even. They gave testimony in abundance—testimony that, if quantity had anything to do with it, would have hung a man. The court room was oppressive with testimony. Judge Sala could not digest it all, but he had enough to give the drayman $5 and costs. The testimony was the costly part of the affair, and Mr. Kohne had to pay $18 20. There's nothing like getting even, although you have to go out of your way to do it.

EXCESS OF RAIN.

Tiffin, O., June 2.—(Special.)—Prof. T. H. Sonnedecker, local signal service observer, reports the amount of rainfall for the month of May in this vicinity to be eight and twenty-seven-hundredths inches, the greatest ever recorded here.

CURRENT COMMENT.

The only McKinley man in the Minneapolis convention will be a person from Montana, and doubtless away back in Montana. Mr. McKinley is not being treated right.—Louisville Courier-Journal.

Gen. Alger is said to be still "pulling wires" in the hope of reviving his boom. He ought to know by this time that there is no joy in a dead mackerel.—St. Louis Star Sayings.

The report that Mr. Blaine is having trouble with his eyes was probably suggested by the fact that when the Washington correspondents ask him to declare himself he can't see it.—Minneapolis Tribune.

"We must interest ourselves in the condition of labor so as to attract the people," say the ministers; and then they meet in solemn conclave and denounce the proposition to open the Columbian exhibition on Sunday.—New York Herald.

About six months hence quiet will be restored in the land. The early roorback crop will be ready in a few days; then come the conventions and the wailings of the defeated, and then the long nightmare called the campaign.—Milwaukee Sentinel.

Quay, Dudley and Mahone are all "again" the administration, and are claimed by the Alger managers. We have in times past heard murmurings anent the combination called Tammany, but the above trio is the cap sheaf for any stack of blood-suckers yet fostered.—Ionia (Mich.) Standard.

Mr. McKinley thinks that it is most surprising, the hold Blaine has on the country. What makes the hold more surprising to McKinley is the reflection that Blaine remarked that his tariff bill wouldn't open a market for another bushel of wheat or another barrel of pork.—Kansas City Star.

Representative Milliken, of Maine, who has had a lengthy interview with Mr. Blaine, says that the "Plumed Knight" will insist on having something to do with the making of the platform. Such care in leaving his measure denotes that Mr. Blaine means to avoid the "personal disappointment" of a misfit.—Philadelphia Record.

Mr. Clarkson is wielding a sweeping scythe for a man whose political management in his own state has resulted so disastrously to the fortunes of his party. His record in cutting down democratic representation in the postoffice department is only exceeded by his record in cutting down republican representation in Iowa state departments.—St. Louis Republic.

There are at least 100 federal office-holders on the list of delegates to Minneapolis. Their combined salaries represent perhaps $200,000 a year. Is it not a matter of fact that that amount of government money is being drawn upon in the interest of the administration? Reformers should consider these points. Consistency continues to be a jewel, and it still does business at the old stand.—Washington Post.

LOST AT GAMBLING.

A Once Wealthy Merchant Commits Suicide.

New Orleans, June 2.—George Sebastian, 35 years of age, committed suicide here yesterday. Sebastian came here 18 years ago and accumulated a handsome fortune in the cork trade.

He went to Europe two years, visited Monte Carlo, stayed there several months and lost his entire fortune at gambling. He then returned to New Orleans to take a place as a laborer in the establishment he had formerly owned.

This, and the fact that he was in no financial condition to marry a young woman with whom he was in love, preyed on his mind, and he ended his troubles yesterday by shooting himself in the head.

STRUCK BY A TRAIN.

Tiffin, O., June 2.—(Special.)—David Kistler, an Adams township farmer, and his 18-year-old daughter, were crossing the Nickel Plate railroad track a short distance east of Green Spring this morning when a west bound passenger struck their buggy, killing Mr. Kistler, fatally wounding his daughter, and utterly demoralizing the carriage.

TOLEDO W. S. A.

Held an Interesting Meeting and Adjourned.

Until October — Reports From the Salem Convention Received—Committees Appointed and Resolutions Adopted.

The Toledo Suffrage association held their regular monthly meeting in the Fort Industry block Wednesday afternoon, the president, Rosa L. Segur, in the chair. As Mrs. Segur was not present at the May meeting, when she was re-elected president of the association, she opened the meeting yesterday with a short inaugural address, thanking the members for the confidence reposed in her. In the absence of the secretary, Mrs. Barker, Mrs. Harmon was elected secretary pro tem.

The committee appointed to visit the police matron had not visited her, but several other members of the association had called and been refused admittance. It was decided to appoint a committee to have an informal interview with Chief Raitz and see if he will endeavor to have the present incumbent perform her duties, or appoint some one who will. Mrs. Cravens and Mrs. Lang were appointed on this committee. As the association will not meet again until October, it was necessary to appoint committees to visit the station during the months of vacation. These were named as follows: July, Mrs. Harmon and Mrs. Dutton; August, Mrs. Ward and Mrs. Cole; September, Mrs. Pomeroy and Mrs. Morgan.

The association next listened to a report of the convention at Salem, and the work accomplished there. Mrs. Bissell and Mrs. Fray gave detailed accounts of each session, and Mrs. Bentley and Mrs. Harmon gave very amusing accounts of their first impressions as "innocent lookers-on," it being their first attendance at a woman's suffrage convention.

Mrs. Cole reported visiting the Children's home, and finding the children healthy and happy; there are about one hundred and five children in the home at present. Some of the ladies protested against putting these children in uniforms, stamping them with the garb of charity and pauperism. It seems the matron of the home is in favor of uniforms.

It was thought best to have an outing or picnic during the summer, and a committee consisting of Mrs. Harmon, Mrs. Shaw, Mrs. Pelton and Mrs. M. B. Eck, were appointed to confer with members of the Political Equality club, as to suitable time and place. The association decided to hold its next meeting on Wednesday afternoon, October 5, and adjourned after adopting the following resolutions:

Resolved, That the Toledo Suffrage association regret the departure of Mrs. A. P. Stevens, a member whose deep interest in and efficient work for the cause of equal rights, made her an invaluable acquisition to this association. We wish her abundant success in her new field of work.

Resolved, That the Toledo Woman Suffrage association regret the resignation on account of ill health of Miss Hattie Brown, who has so acceptably filled the position of deputy clerk of the United States district court 11 years, and particularly deprecate that her successor was not Miss Julia Getz, for whose appointment the members of the Lucas county bar had petitioned, and that Miss Brown's successor is a gentleman from Cleveland.

WILLIAM R. SMITH

Terminates a Brilliant Career in Toledo

At the Police Station—He Swindled the Jefferson, Also His Friends, and is Wanted at Ann Arbor for Four Forgeries.

William R. Smith flew into Toledo about a month ago like a meteor shedding a scintillating tail along his path. He was a gentleman in appearance, was an insurance adjuster by occupation, and had an interest in a smoke consuming apparatus for engines, and a glib tongue that was his passport on all occasions.

William stopped at the Jefferson for a while, and made many friends, whom he proceeded to fleece in various ways, generally getting money on skin paper. He also stuck the Jefferson for his board. Finally William became too gay and his friends tumbled. His commentary flight was brought to a sudden stop, and he was mourning behind a prison bar at the police station this morning, his finery and his temper somewhat ruffled and the worse for the contact with the mouldy pirson, and William had forgotten to bring along a manicure set and brush on account of the rapidity with which Detective Kruse hustled him out of bed and to the station.

After his arrest it was learned that Smith, who it seems also goes under the name of H. H. Leaton, was the man wanted at Ann Arbor, Mich., for forgery, he having obtained at four different times sums of $100 on forged checks.

At 10:30 this morning he was taken to Ann Arbor to make atonement for his sins.

Detective Manley says he never met such a prolific liar. William's bump of truth was as ductie as platinum and as elastic as rubber. His only fault was he couldn't lie twice the same, a shortcoming that will trip up the greatest liar living.

COMPARTMENT HOUSE

To be Erected on the Corner of Tenth and Madison.

The Glenwood Syndicate to Secures Control of a Valuable Piece of Property.

The Glenwood syndicate, composed of L. S. Baumgardner, C. T. Lewis, Judge J. H. Doyle and Judge Ricks, has secured the tract of land diagonally across from the high school, corner of Madison and Tenth streets, and will erect thereon a handsome apartment building.

The lot is 100 feet square and has been owned by Mr. Baumgardner, who turns it over to the syndicate, of which he is a member, at a reasonable price.

The plans and specifications are being prepared, but not yet quite finished. It will be a five-story block, with all the modern conveniences of a first-class residence. The location is one of the best in the city.

RYAN NOT GUILTY.

St. Marys O., June 2.—(Special)—John Ryan was acquitted to-day on a charge of shooting with intent to kill. Two weeks ago, he shot Wm. Philbin whom he caught in the act of burglarizing his house.

ALONG THE GREAT LAKES

Insurance Companies Print the June Tariff.

Heavy Storms Reported on the Big Ponds.

Vessel Passages Through the Straits And Rivers—General and Local Mention.

Chicago, June 2.—(Special Marine Service)—The Chicago Cargo Insurance board yesterday promulgated a new tariff on grain for June. The rates are 30 cents to Buffalo and 40 cents to Kingston and Ogdensburg. Montreal is also made 40 cents, to compete with Duluth.

The Wergeland.

The Norwegian steamship Wergeland cleared at the custom house yesterday for Christiansand, Norway. The cargo is shipped by O. A. Thorp, of Chicago, and is consigned to G. Jacobson, Christiansand. It is as follows: 1,000 bags of flour, 352,000 pounds, valued at $8,000; 9,800 bushels wheat, 588,000 pounds, worth $4,500; 118 barrels beef, 23,600 pounds, worth $2,000; 200 cases canned roast beef, 20,160 pounds, worth $1,100.

Capt. Weise, of the Wergeland, expected to leave Chicago on his home voyage for Norway last night or this morning. The actual measurement of the ship is 317 tons net. Capt. Charles Staley, the pilot, remains on board until she arrives at Kingston. A large number of people visited the Wergeland yesterday afternoon and took a last look at her and bid the commander and crew good-by.

Capt. Egan has moved his trunk and effects from 2417 Cottage Grove avenue, to new rooms in the town of Lake. He says he is devoting his whole time to aiding the detectives in investigating the conspiracy against him, and punishing the perpetrators. He is no longer connected with the shipping office.

Out in the Storm.

Arriving craft report a most violent squall on Lake Michigan on Tuesday afternoon accompanied by lightning and rain. The schooner Herschel was caught in it and her jibboom carried away, the vessel being very roughly handled. The crew of the tug Mollie Spencer say they saw one schooner struck, turned completely around, and over almost on her beam's end. Several of the vessels running into port lost portions of their canvas, among them the schooner American Union.

Chicago Notes.

The vessel which went on Racine reef proves to have been the schooner Z. G. Simmons. She was released and is at Milwaukee for drydocking.

Shipping Master Biemel went out to South Chicago yesterday with a crew for a schooner there. The W. S. Crosthwaite was furnished with a crew the day before, and a first mate was furnished the John Martin.

The steamer Chas. Eddy and barge Newell Eddy, the steamer Folsom and barges Mitchell and Nelson, beside two or three other vessels, all had police on board in Chicago harbor yesterday.

Capt. Albert J. Misener recorded yesterday as master of the barge Churchill, vice Capt. Stephen Jones.

The steamer Lorain L., a stranger here, is in port with lumber. She was built for the fruit trade last season and is a nice-looking little boat.

Chicago Rates.

Chicago, June 2.—Vesselmen were generally holding their boats to-day for better rates on grain, and shippers were able to care for everything ready to load. There seemed no chance for an advance.

Duluth.

Duluth, June 2.—Charters were made yesterday for 2 1-2c for wheat to Buffalo. There is plenty of tonnage offered at that figure to-day, but without takers, as there is no demand for Duluth wheat, New York prices being too near Duluth.

The city council has ordered the harbor master to place buoys marking the channel at the end of Rice Point.

Strike at Ashland.

Cleveland, June 2.—Ashland advices state that men on both ore docks are on a strike and delays to boats going to that point are expected.

Through the Soo.

Sault Ste Marie, June 2.—Up—City of Cleveland, Quayle, Kirby, Monarch, 7 a. m.; Pabst, 8; Kershaw, Moonlight, Ironton, 10; Gardner, Harper, 10:30.

Down—Northwind, 10 last night; Fay, Rhodes, Tilley, Neelan, 12; Republic, 2; Phillip Minch, Morse, 3; E. M. Peck, 4; Campbell, North Star, 6; Australasia, Tasmania, 8; Parks Foster, Paris, 9. Calm, water 14 feet.

Through the Straits.

Mackinaw, June 2.—Down—Interocean, Vought, 5 a. m.; Swain, Helvetia, 7:00; Wyoming, 8:00; Colwell, consorts, 10:00; Chemung, Alpena, Alta; Burton, 10:30.

Up—Helena, 1:30; Frontenac, 7:00; Samuel Marshall consorts, Scotia, Ellen, Williams, Oceanica, Aver, 7:15; Whittaker consort, 9:00; Tuscarora, 10:30; Aurora, Magnetic, Granger, 10:40.

At the Crossing.

Lime Kilns Crossing, June 2.—Down—Mount Clemens, Servia, consort, 10:30 last night; Tempest No. 2, barges, 11:00; John Moore, Corsica, 12:15; Flint and Pere Marquette, 1:20; Denver, 1:30; Home Rule barges, 2:30; Nellie, Torrent, barges, 4:00; Montana, 5:10; Wilcox, King, Mongangon, 7:00; Chicago, 7:50; Martini, 9:00; New Orleans, Page, 9:20; Griffin, 10.

UpWilliam Hall, 11:10 last night; Progress and consort, 11:30; Gladstone, 12:20; Foy, Schutte, 2; Barnum, 2:40; Buell and barges, 3:10; Carpenter and consort, 3:50; Saxon, 4:20; Amantle, 5:20; Corona, 5:50; Davidson, 8:20; Japan, 8:30; Westford and barges 10:20.

Passed Port Huron.

Port Huron, June 2.—Up—Conemaugh, Roumania, Barnum, 10 last night; Topeka, Richards, Kent, 12:40; Blanchard, 1:20; McVittie, 2:40; Lindsey, 3; Sheldon, Ely, 3:30; Scranton, 4:40; Siberia, 5:15; Clyde, 8; W. B. Hall, 8:30; E. B. Hall, 10; Saxon, 11:20.

Cleveland Rates.

Cleveland, June 2.—Coal rates from Buffalo to Chicago and Milwaukee yesterday advanced to 60 cents, but the fact was suppressed at Buffalo.

Cleveland brokers chartered several boats at this figure at both Erie and Buffalo for Chicago.

The number of ore cargoes is about equal to the supply of boats from Ashland at $1.10 and from Escanaba at 65c.

The Coal Boom.

Buffalo, June 2.—A bigger business in chartering boats for coal to Chicago is now being done than since navigation opened.

Chartered—J. M. Nichol, to Duluth, 30c; William Hone, to Traverse City, 80c.

Port Huron, June 2.—The Gladstone, bound up, broke her port wheel chain while going out of the rapids, and ran across the tow line of the barge Marvin, of the Ed. Smith's tow.

The Marvin struck the Gladstone forward of the boiler house on the starboard side, breaking the Gladstone's throttle valve, and the blow-off pipe. It will take several days to repair the stem of the Marvin, which was broken.

Sent to the Bottom.

Detroit, Mich., June 2.—A disastrous river collision occurred last night off Wyandotte. The propeller Progress, of Milwaukee, coal laden, bound up, collided with the propeller Britton, of Rockport, shortly after midnight, and the Progress was sunk in 25 feet of water, disappearing in less than three minutes.

Capt. Sullivan and the crew of 16 men were saved and were brought to Detroit this morning. Neither the captain nor crew would talk about the accident.

The Britton was badly damaged and was towed to Detroit.

The Progress was a 1300-ton vessel, valued at $87,000. She is owned by the Milwaukee Transportation company. The Britton belongs to the same company; is an 18000-ton vessel, and is valued at $200,000. She carried a cargo of iron ore.

Local Marine Notes.

The steamer City of Toledo is carrying a large lot of freight and passengers for this season of the year.

About a thousand people will come on an excursion from Lima, O., June 30, to go to Hotel Victory for the jollification. They are mostly members of the Brotherhood of Trainmen, of Lima.

The steamer Flora went aground down the river yesterday morning and remained so until 4 o'clock yesterday afternoon, when the tug Champion, of Detroit, pulled her off.

THE POLICE BOARD.

Regular Semi-Monthly Meeting Last Night.

Detective Manly Resigns—Promotions and Vacancies Filled—Headquarter Figures for May.

The police commissioners met in regular session last evening.

The health officer made his regular report. It showed 104 deaths during the month and 1,345 nuisances abated.

He reported a sample of candy sold on the streets from portable stands analyzed and found to contain glucose, paraffine and flour, which he said is dangerous to health and the sale of the same should be abated. The board ordered that the dispensers of the candy be compelled to sell the stuff for what it is or quit the business.

A resolution was adopted requiring the council to put in a sewer in the vicinity of Logan and Oliver streets, and that a body of stagnant water on the corner of Newton street and Broadway be drained or filled.

The schedule of monthly bills and the police pay roll, $6,652.18; health, $1,742.22; courts, $723.14, were approved and referred to the city auditor for payment.

Mr. Doville wanted special police powers conferred upon Patrick Mitchell, who would assist in preserving order at the Jefferson street steamboat landing. A request of this kind must come from parties interested, and no action was taken.

John Daiber presented a bill against Officer Langel, for $40 for a new uniform. Langel was discharged, but had $25 remaining which had been deducted from his last month's pay to settle a fine. Attached to the bill was a communication from Langel assigning the $25 over to Daiber. The board ordered the money paid.

The chief's monthly report showed 348 arrests in city cases and 71 in state cases, a total of 419.

In the matter of the death of Dr. Jones the board passed a resolution instructing Chief Raitz to detail four officers to guard the body while it lies in state at Memorial hall; also a squad to attend the funeral. The board will attend in a body.

Mayor Emmick reported that a site for a pest house had been selected on the Manhattan road, near the Ann Arbor railroad, and a resolution recommending that the council purchase the property was adopted.

Mr. Potter complained of the inability of Patrol Driver Higgins, that he had dizzy spells, and every time he made a run, life and property were endangered. Mr. Higgins had been a faithful and efficient man in the place, but Mr. Potter did not feel like keeping him under the circumstances, and made a motion that the driver be removed, which was approved.

Mr. Potter moved that Detective Duffey be reinstated. Mr. Doville opposed, for the reason that he had heard from good authority, certain things about Mr. Duffey that he would not countenance in any officer. He did not tell what he had heard or who his informant was.

As was announced in the Bee, Detective Manly presented his resignation, which was accepted.

Detective Nichter was elected first detective and Delbert Hall second.

Chief O'Dwyer presented an envelope containing a $5 bill and a red poker check, which was found by Policeman Bliss, last fall, near the corner of Summit and Vine streets. The owner had never been found. The board gave the officer 15 per cent. of the amount and ordered the remainder deposited to the credit of the pension fund.

Chief Raitz announced that Officer John Mutchler would be detailed to drive the patrol wagon.

This made two vacancies on the force and D. W. Sweeney and John H. Crowly were elected to fill them.

The trustees of the pension fund met after the board adjourned, and authorized the secretary to refund $25 to Patrolman Herrman, who was discharged with Langel.

A WOMAN IN IT.

Chicago Police Fathoming the Fish Assault.

Chicago, June 2.—Joseph Fish, the dry goods merchant whose face was horribly disfigured a few days ago by Jerry Trumbley, an ex-prize fighter, declares that the assault was prompted by a young and attractive-looking widow to whom he had paid some attention, but has had no relations with of late since being engaged to marry the daughter of a prominent Hebrew citizen.

A bottle of vitriol was found upon Trumbley, and it was this circumstance that first caused suspicion that the reason for the attack was not as claimed by Trumbley, that Fish had jostled against him on the street.

The elevator man in the Brunswick-Balk-Collender building, an eye witness of the affair, says Trumbley lay in wait for Fish. The police have ascertained that the vitriol was purchased by a woman, and that Trumbley was in conversation with a woman shortly before the encounter. It is also asserted that the woman in question more than once threatened Fish "I'll spoil your handsome face."

Trumbley is declared to have ground his heels repeatedly in Fish's face, after smashing him with brass knuckles, and kicking him in the eyes and jaws. Only the merchant's face was aimed at—no other portion of his head or body. Fish's unconsciousness after the affair prevented the invardness of the matter being made public, and until now it was generally supposed that Trumbley was a fleeing pickpocket whom Fish had attempted to stop. The police, it was stated, had the woman under surveillance this morning, but had not yet made a formal arrest.

If they but knew how sure and swift

THE BRAVEST BATTLE THAT EVER WAS FOUGHT.

The bravest battle that ever was fought
Shall I tell you where and when?
On the maps of the world you will find it not
'Twas fought by the mothers of men.

Nay, not with cannon, or battle shot,
With sword, or nobler pen;
Nay, not with eloquent word or thought,
From mouths of wonderful men.

But deep in a walled-up woman's heart,
A woman that would not yield,
But bravely, silently bore her part,
Lo! there is that battlefield!

No marshalling troops, no bivouac song;
No banner to gleam and wave;
But, oh! those battles they last so long—
From babyhood to the grave.

Yet, faithful still as a bridge of stars,
She fights in her walled-up town,
Fights on and on, in the endless wars,
Then silent, unseen, goes down.

O ye with banners and battle shot,
And soldiers to shout and praise,
I tell you the kingliest victories fought
Are fought in these silent ways.

Oh, spotless woman in a world of shame!
With splendid and silent scorn,
Go back to God as white as you came,
The kingliest warrior born.

—Joaquin Miller in the Business Woman's Journal.

The accident insurance people are pretty safe. In the United States one railroad passenger in every 2,800,000 is killed, but in France the ratio is on only one to every 24,000,000.

According to statistics just published, the production of gold in Russia in 1890 amounted to 2,406 poods 37 pounds (the pood equals 40 Russian or 36 English pounds), compared with 2,271 poods 31 pounds in 1889. The increase is said to be due to the development of Siberian gold.

The largest wooden bridge in the world is that at Two Medicine, on the St. Paul & Manitoba railway. It is 751 feet long and 211 feet above the water. In this bridge are 750,000 feet of lumber, and any one piece can be removed and replaced when worn out without disturbing the rest.

It is said that four-fifths of the steam engines of the world have been constructed within the last 25 years. The total horse power is estimated at 49,000,000, of which the United States has 7,500,000; Great Britain, 7,000,000; Germany, 4,500,000; France, 3,000,000, and Austria, 1,500,000.

A curious and profitable business has grown up in the Maine woods about the sawmills, in the utilizing of the immense quantities of sawdust by compression. Thousands of tons of sawdust are pressed into compact blocks and bales, and in this form is finding a ready market for kindling and fuel in the eastern cities.

The necessary equipment for six miles of electric tramway is now on its way from this country to Siam. Six generators, two complete steam plants, 20 car equipments and extra parts to last for six months make up the order. The road is to be installed in Bangkok, and will be the first electric tramway in Siam.

Professor Elihu Thomson, in a recent article, states his belief that 130,000 horse-power at 500,000 volts can be transmitted 240 miles through three wires about as large as a good-sized knitting-needle, and, moreover, that this can be sent underground through a small pipe, using only cotton and cheap oil as an insulator.

The literary society of Finland is by far the most active, as it is the oldest society of folk-lore in the world. It was established in 1831, in order to gather oral material as well as manuscripts relating the archaeology and linguistics of the race. The various pieces of folk-lore now in manuscript in the library now amounts to more than 110,000 numbers.

The Kitchen God in China has just returned to his duties after a brief holiday. At the beginning of every year the domestic deity is supposed to ascend to the Supreme Ruler to report on the private life of each family under his care. Lazy wives, whose housekeeping is not irreproachable, smear the god's lips with sugar just before his departure, bribing him to make a favorable report to heaven.

Miss Ume Tsuda, of Tokio, who has spent many years in the United States, and has for some time been pursuing a collegiate course at Bryn Mawr, Pa., has organized an attempt to secure a permanent fund of $10,000, the income of which shall be used for the education of a carefully selected Japanese woman desirous of pursuing a four years' course of collegiate study in this country as a preparation for work as a teacher in Japan.

A college for native Christian students has been opened at Mysore, South India. The institution was started nine years ago in a stable. Four years later it emerged into what was once the high school. A short time since a brief note came from Australia offering £1,000 toward the scheme. This was followed by other generous contributions, and, as a result, the opening ceremony just held was one of triumph and hearty thanksgiving.

The danger of incasing incandescent lamp bulbs in readily inflammable material is evidenced by fires recently reported. Notwithstanding the popular impression, an incandescent electric lamp gives out a considerable amount of heat, and surrounding its bulb with laces, tissue paper or any such substances as are commonly used in window displays, without arranging them so as to allow good radiation, involves considerable danger.

A Sangamon county (Illinois) man has a scheme for making "mulies" out of all breeds of cattle. He has compounded a sort of salve that he rubs on the heads of calves and prevents the growth of horns. He applies the stuff vigorously once a week from the time the calf is three months to a year old, and every one to which he has applied the salve grows up hornless. He preserves the strictest secrecy with reference to the materials that are put into the salve and as to their proportions in the compound, though it is known that he uses a large amount of patent axle grease. He won't allow any of his neighbors to experiment with the compound, for he says he wants to first satisfy himself as to its efficacy, after which he will patent it and enter regularly into its manufacture.

An interesting point has just been brought out in a report presented to the London labor commission on the productiveness of labor in the coal mines of the world. It appears from this that in 1882 the amount of coal produced by each workman underground in Great Britain was 428 tons. In 1889, with the reduced hours, it was 387 tons. In Germany, however, under the same conditions, the comparison of the two years shows a gain from 346 to 425 tons per workman. Belgium and France show similar though less marked gains. The conclusion which Englishmen are obliged to draw is that in foreign countries the efficiency of labor is improving, while in England it is standing still.

The "compound oxygen drunk" is the latest Boston craze. There are a half-dozen establishments in the Hub that are doing a rushing business in catering to this form of dissipation. They are patronized exclusively by men and women of the highest social position, the women outnumbering the men. The sensation produced by the inhalation of compound oxygen is described by those who have tried it as ecstatic. There is nothing known to the science of medicine or pharmacy that equals its delights. Big quaffs of it that fill the lungs' air-cells are said to set all the nerves of the body a-tingle, and the brain in a delirious whirl. The effect lasts all the way from five minutes to an hour, according to the person, and is said to have no apparent deleterious results, except a peculiar mental collapse, from which the dissipator doesn't recover for several hours. While under the strange influence of the stuff one feels completely lost to the world and oblivious to everything terrestrial. That is the reason it is called the compound oxygen drunk.

A CLEVER ESCAPE.

In Tennessee the most of the convicts are worked in the mines and are not guarded by walls and bolts but by men who stand over them with shotguns and Winchesters. As a matter of course these taskmasters are not of a very high social order and do not excel in either humanity or education. If a convict leaves the line as he and his fellows are marching from mine to stockade in the first shadows of evening, or if he drops his rake at the coke ovens and starts to run, he will certainly be pursued by one or more bullets, aimed with considerable precision. It is therefore not a rare thing for a convict to be killed or maimed for life. The guard is only doing his legal duty and seems to enjoy shooting at such big game by way of a break in the monotony of long days of watching and loafing.

But frequently convicts do escape to the mountain wilds, where they are never pursued. In fact, if a convict manages to get half a mile from the mines without being caught or killed he may count himself safe so long as he keeps away from the villages and towns. The trouble is in getting his convict garb exchanged for less conspicuous clothing. And all the escapes that are planned by convicts who have no friends on the outside are planned with this in view. Every convict guard has some story of ingenious escape and is willing to tell it if he was not too badly involved in it.

Not long ago there was a white convict named Reed working at the Briceville stockade. He had been put in for ten years for a series of forgeries and as he was not very strong they let him do the lighter work around the stockade and only worked him in the mines when there was a particulary heavy run. He had been in stripes about a year and had behaved himself so well that the guards thought he was resigned to his lot. Furthermore, Briceville is far away from civilization and he had no friends to give him clothes, even if he succeeded in getting away. One morning he started for the well to draw some water, a guard with a Winchester over his shoulder accompanying him. They walked along side by side, the convict carrying two big tin pails. The well is about 400 yards from the stockade, around the side of the mountain and shut in from any sort of view by trees and bushes. The guard sat down on a stone near by and the convict stood at the well box looking down into the well. Pretty soon the convict leaned over and put his head far down into the well box.

"What's the matter?" said the guard.

"A big water snake," said the convict, standing up and looking around him. "The biggest snake I ever saw."

The guard left his Winchester leaning against the rock he had been sitting upon, and came over. He looked down the well.

"I don't see no snake," said he. "Draw your water and come along."

"You don't lean over far enough," said the convict. "He's lying on a ledge about half way up the side of the well."

The guard was interested, and, holding to the well box with both hands, leaned away in.

"A little further," said the convict, "and you'll see him."

The guard leaned still further in. The convict grabbed him by the legs, lifted his body to a perpendicular, and with one tremendous jam loosened his hold on the box and stuffed him into the well. The guard fell with a yell and a huge splash. But the yell was muffled by the close walls of the well and by the small box. Fortunately for him the water was not so deep and he struck it in such a way that he came to the surface right side up. There he was sputtering, splashing and cursing resonantly. He looked up at the small square of daylight high above him, and saw the convict's face and heard him laugh. "Do you see the snake?" said the convict.

"Just wait till I get out of this," said the guard. "I'll make you sweat for it."

"But I won't wait," said the convict. His face disappeared from the hole and the guard began to yell. The convict reappeared with the Winchester. "You needn't trouble yourself to yell," said he. "Two feet away from this box it sounds no louder than a frog's croak. Now undress youself quickly and I'll let down the bucket for your clothes. If you don't undress I'll shoot."

"If you shoot they'll hear you and then it'll be all up with you," shouted the guard triumphantly.

The convict was silent a minute, then called back: "That's a fact. I'm much obliged. I'll drop big stones in at you if you don't hurry up those clothes." And he dropped in a small stone just to show how it would work. The guard dodged, but the stone caught him on the shoulder and made quite an impression, coming from such a distance.

"Hurry up," said the convict. "I'll undress, too, and pass down my clothes. See that ledge over there? You can get on it and keep dry until some one comes. I am really doing you a favor in letting you have my dry clothes for your wet ones."

The convict was undressed first and hurried the guard with a couple of good sized stones that just missed him. When the clothes were ready the convict let down the empty bucket, which was caught by the shivering guard and filled with the wet clothes. The convict raised these to the surface, took them out, and put his dry clothes in and lowered the bucket again. When the guard had got the dry clothes the convict raised the bucket again.

He wrung the wet clothes out over the mouth of the well and then put them on. He leaned over the well and said: "Say, old man, you forgot to take your money out. I'm ever so much obliged, as I need your month's pay worse than you do. Good-by. I hope you'll get out soon, but not too soon."

And he was gone with the Winchester over his shoulder before the howl of rage from the guard reached the surface. About two hours afterward they missed the guard and convict and set out searching for them. As soon as the guard heard the faint sounds of footsteps he started to yelling. It was nearly an hour before they got him out and started in pursuit of the convict. But everybody has to go afoot in those wilds, and the convict had too good a start. He was clever enough to keep away from the railroads, and, with the guard's pay, he was able to support himself and avoid suspicion. They have not caught him.—New York Sun.

THE RAIMENT QUESTION.

Is Stevenson Justifiable in Attempting to Clothe the Natives of Samoa?

A paragraph is going the rounds of the newspapers stating that Mr. Stevenson is engaged in Samoa in endeavoring to induce the inhabitants to wear clothes. Personally, says Labouchere in the London Truth, I should have preferred to hear that he was writing books for those who wear clothes. But why should not the Samoans go about clotheless if they are accustomed to it? Clothes are all very well in countries where the climate renders them necessary. Where this is not so they are a superfluity and cost money which might be more usefully expended.

A Samoan lady without clothes is surely as sensible as an English lady who spends half her income (and often more than her income) in a number of gowns, hats, bonnets and cloaks. I am not suggesting that the Samoan woman should be followed by the ladies of Great Britain. Here, we associate nudity with indecency. Put to a perfectly unprejudiced mind there is no more indelicacy in a human being going about as God made him than in a horse doing so.

Clearly, if the Samoans can be induced to wear cotton goods, and will kindly allow us to sell these goods to them, we shall be gainers by Mr. Stevenson's sartorial crusade; but I fail to see the advantage to the Samoans. I once spent some months in a remote town in Central America. Every evening the inhabitants, rich and poor, went to a river and bathed without a stitch of clothing on. At first I was a little taken aback by this custom, but soon I became so accustomed to it that it never occurred to me to think it peculiar. Such is habit, and so soon do we revert to the days of the Garden of Eden.

Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

ABOUT PEOPLE.

Col. R. A. Crawford, who died at Atlanta a few days ago, was buried in his confederate uniform, a faded old suit with bullet holes in it.

Count Herbert Bismarck is 43, and has had lots of time in which to sow his wild oats and plenty of bitter experiences to remind him that "at forty a man is either a fool or a philosopher."

Miss Amy Johnson is about to start on a bicycle tour which will take her 25 days to complete. She will wheel it from Yellow Springs, O., where she teaches school, to Davenport, Iowa, a distance of 800 miles.

Celia Thaxter, the poetess, is a tall, handsome woman of 57, whose snow-white hair ripples above a dark face and brilliant but dark eyes. She spends every summer at the Isle of Shoals.

Dr. Francis L. Gill, who was surgeon of the Alabama at the time of her capture, is enjoying a hale old age in Loudoun county, Virginia, but he never indulges in war reminiscences.

BOARDMAN & GRAY PIANOS
ESTABLISHED 1837.
Sold continuously since 1870 at
219 Summit Street.
Why Should Piano Dealers and Their Agents Go Out of Their Way to Decry the Superior Merits of the Boardman & Gray Pianos? The Reason is Obvious.
This make, sold in large numbers for more than 21 years by a reliable house, recommended and indorsed by nearly all of the best musicians and teachers in Toledo, has become a formidable barrier to the sale of other first-class pianos offered by competing dealers and their agents, by reason of their constantly increasing sale and popularity. Competitors, alarmed and uneasy, resort to many unreasonable as well as untrue statements, which they work off on confiding individuals, and cause them to be circulated in this city and elsewhere. Among these old chestnuts, is the statement that "The Whitney & Currier company manufacture the Boardman & Gray, or have a proprietary interest in their manufacture, and are actuated by that interest, to praise their merit and push their sale." The first part of this statement is untrue. This company has no proprietary interest in the manufacture of any piano. It is actuated in recommending the Boardman & Gray piano by the same motives which actuate any honest individual in recommending that which he knows to be of superior merit, and also by the same motives any one would have in pushing the sale of any successful meritorious article in which a reasonable profit may be realized, and that which is true of Boardman & Gray in this respect, is true of other makes this company has for sale. The superior facilities the Whitney & Currier company has in purchasing, enable it to give greater value for a like sum of money than can be had of its competitors. No other house can show an equal line of first-class Pianos, nor the number from which to select in making a purchase. All are invited to call and see for themselves, whether wishing to buy or not.

Senators Afraid to Vote on the Silver Bill.

No Action to be Taken Until After June 14,

Which Means that the Republicans Do Not Want Their Votes Recorded Just at This Time.

Washington, June 1.—Prior to the resumption of debate on the silver bill an incidental division took place involving a similar question. Mr. Teller moved to amend one of the bills taken up from the calendar by inserting a provision that in the case of property sold be decree of United States courts legal tender notes should in all cases be legal payment. Mr. Sherman opposed this, suggesting that there might be special contracts to pay in gold, but on a vote the bill as amended by Mr. Teller, was taken up by 25 to 12, Messrs. Hill and Hunton voting in the majority. No quorum voting the matter was laid aside informally.

At 2 o'clock Mr. Sherman resumed his speech on the silver question. Apoligizing to the senate for the length of time he had occupied, he attributed this to the numerous interruptions.

He said there was a law of finance as immutable as the ten commandments which was that when there were two metals in circulation th echeaper metal would always displace the better metal.

This had been early established in English financial crisis and had been decided by the great weight and authority of Sir Isaac Newton, upon whose recommendation all the silver of that country had been recoined.

He referred to the depreciation of the silver rpee in India and said her ewas a country which for untold ages had been dealing with silver and yet (as appeared from articles from the London Times which he read) was afflicted with the same decline of prices and was threatening to resort to the same standard as prevailed in Europe and in the United States—the gold standard.

The peole did not want sheap money; they wanted more money and plenty of it. But the two ideas had been blended together and used to support the free coinage of silver.

At the close of Mr. Sherman's speech it was unanimously agreed that no vote should be taken on the silver bill until after the 14th of June.

Mr. Morgan gave notice that he intended to press for a vote before June 21.

In the house.

Washington, June 1.—Mr. Oates reported back the resolution regarding the impeachment of Judge Boarman, of Louisiana, which was laid on the table.

Mr. Whiting, (democrat) Michigan, reported a bill from the committee on ways and means, prescribing the amount of wearing apparatus apparel and personal effects to be admitted free of duty. Calendar.

The house then went into committee of the whole on th epostoffice appropriation bill (Mr. Buchanan in the chair).

Mr. Lanham (democrat), Texas) by request of Mr. Crain, offered the following which the chair ruled was out of order: That the appropriation of $10,450,000 for free delivery shall be disbursed in such manner that no additional free delivery office shall be established in any congressional district created by virtue of the congressional apportionment act in which there may be established one or more free delivery offices, nor shall the free delivery facilities be increased in such offices, until every congressional district in which there may be a place possessing the necessary qualifications be supplied with at least one free delivery office."

Mr. Blount (democrat), of Georgia, besought the house not to override its rules by any such legislation as was contemplated by the amendment. He appealed from the decision of the chair.

PA KNOWS HIS BUSINESS

Emmons Blaine Has Corked Himself Up.

Delegates Gathering in Chicago Preparatory to a Start to Minneapolis.

Chicago, June 1.—Emmons Blaine was at the Grand Pacific hotel this morning in conference with J. S. Clarkson, but to all the questions of reporters answered that he was as much in the dark as to his father's intentions as any one. He admitted, however, that the silence of the secretary was likely to be construed in one way only.

Senator Hansbrough, of North Dakota, was another of this morning's arrivals. He is a red hot Blaine boomer and declared that all the delegates from his state, with perhaps a single exception, were for the Maine man. "My ticket," said Mr. Hansbrough, "is Blaine and Rusk."

Ex-United States Senator George G. Wright, of Iowa, sounded a discordant note in the Blaine chorus this morning. He came straight from DesMoines and declared that the Hawkeye state was for Harrison beyond a peradventure. "The republicans of Iowa," he said, "are not going to be dictated to by Ret Clarkson."

The members of the national executive committee left for Milwaukee to-day. To-night they will be entertained at a banquet by Henry C. Payne and to-morrow the trip to Minneapolis will be resumed. The talk of a temporary chairman seems to be equally divided between Tom Reed and J. Sloat Fassett.

The members of the party which left this afternoon are: J. S. Clarkson, A. L. Conger, J. Sloat Fassett, H. R. Hyde, of Massachusetts; Samuel Fessenden, of Connecticut; Harry Swords, sergeant-at-arms, and James F. Burke, president of the College League of Clubs.

NOTHING BETTER FOR CHILDREN

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, allays all pain; cures wind colic, and is the best remedy for diarrhoea. Sold by druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

FLORIDA DEMOCRATS.

They Are Going to Have Trouble Adopting a Platform.

Tampa, Fla., June 2.—The democratic convention will probably be in session four days. Nearly all the delegates were here last night and caucusing began in earnest. The two greatest contests are over the gubernatorial nomination and the seating of one or two of the contested delegations; and the victory of one or the other means the nomination or defeat of Judge Mitchell, who is in the lead for governor.

An unexpected turn was given to affairs last night in a caucus of alliance delegates numbering over 100. Nearly half of them insist that the convention indorse the "Ocala demands" and the St. Louis platform; and a hot fight has been precipitated. If the alliance delegates can agree upon a policy they can control the convention, since they hold the balance of power between the two factions of the party.

The wigwam is an open air structure on Fort Brooke reservation, with only a roof. It stands under magnificent moss-clad live oaks, and is built so as to permit the limbs to run through the roof. In the center of the chairman's platform is an immense forked oak. The pillars of the building are palmettos. The building is 125 by 100 feet.

Tampa, Fla., June 2.—John H. McKerie was made temporary chairman, a triumph for the Mitchell men, and a set-back for the contesting Call delegation from Duvall county.

TOOK A NEW TURN.

Whisky Trust Cases Being Fought in New York.

Cleveland, O., June 2.—Warren H. Corning and Julius E. French, members of the whisky trust, who were indicted by the United States grand jury in Boston for violating the anti-trust law, were taken before United States Commissioner Williams and given a hearing on the charges in the indictment.

They were immediately bound over to the United States district court of the district of Massachusetts in the sum of $5,000 each. They refused to give bond, and the commissioner issued a final mittimus committing them to jail in default of bail.

United States Marshal Haskell took charge of them and they immediately were taken into the United States district court room before Judge Ricks.

Col. A. T. Brinsmade, the district attorney, made an application for an award of removal of the prisoners to the jurisdiction of the United States district judge at Boston. This was resisted by Hon. Elihu Root, the famous attorney of New York, who, with Hon. S. E. Williamson of this city and Judge Thatcher of New York, appeared as counsel for the prisoners.

Thy contested the application on the grounds that the indictment did not charge them with an offense that can be tried in the courts of Massachusetts, and that the anti-trust law is unconstitutional.

Heiskell's Ointment removes freckles.

NORTH DAKOTA.

The Legislature Called in Special Session.

Minneapolis, June 1.—A special to the Journal from Bismarck. N. D., says: Gov. Burke in his message to the special session of the North Dakota legislature, says:

"An extraordinary occasion having arisen by reason of the lack of provision in the laws of the state whereby the representatives to the electoral college, and for canvassing the returns, I have, as provided by the constitution, called you together in special session.

"The sentiment of the people also warrants me in calling your attention to the matter of an additional appropriation for the world's fair fund. I leave these matters in your hands."

SUGAR MUST GO UP.

Housekeepers Had Better Put in a Stock.

Philadelphia, June 1.—A notice posted yesterday in the Franklin sugar refinery of E. C. Knight & Co., recently absorbed by the sugar trust, announced that no more orders would be taken from purchasers of sugar, as the firm had oversold for all grades.

This announcement is taken as a movement on the part of the sugar trust to facilitate a rise in sugar.

A member of the firm of E. C. Knight & Co. declared that it was to prepare for the contingency of an enforced shut-down that the action was taken. The poor condition of the boilers at the refinery, he said, made necessary the suspension of production.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

THE OTHER HALF.

A Lesson From Real Life That Opened Hearts and Purses.

There had been a gay party down the river. When the train came to a standstill about one hundred and fifty young people and the attendant chaperons were waiting in the little station on the club house grounds and making things lively with their cheers for the commodore, cheers for the pretty girls and finally cheers and a tiger for the astonished engineer.

Only one sad face among so many, and that belonged to a woman young in years, but thin and worn by days of unremitting toil such as the others had never dreamt of. She carried in her arms a bundle done up in a newspaper. A loosely-tied, slip-shod package that she handled with care. When the crowd surged into the car she took her seat at the extreme end in one of the places that brought her right in the midst of a group of particularly wild and gay young revelers. With anxious care she held the package done up in its greasy paper on her lap, and ever and anon wiped away a tear with a corner of the torn wrap trimmed with its tawdry jet passementerie.

A lurch of the train threw one of the young fellows who was sitting on the arm of the seat almost onto the precious bundle. With a startled cry and a voice made shrill by fear the woman cried:

"Look out; can't yer see yer crushing me bundle?"

"I beg ten thousand pardons, madame," replied the youth, who had raised a laugh at his expense owing to his awkward lurch and the sharp exclamation of the woman.

"Won't you allow me to secure you a seat in the baggage car, where you and your trunk will be in no danger of being harmed by contact with the wide world?" And sotto voce he added to his fair companion: "It's the place for such cattle, anyhow. The English system of first, second and third class is far superior to our mode of crowding in with all sorts of creatures."

The quick ear of the woman had caught the word "cattle" and she sprang to her feet like a tigress.

"Cattle is it?" she glared. "I may not be a lady like yer pretty friend, but I'm a woman with a woman's feelin's. That bundle has flowers in it for me dead baby. While yez were dancin' and drinkin' me little bye wuz lyin' cowld and stiff, and these two arms that should have held him had to wash the dishes at the club house to get money enough to take me back to the day nursery, where I left him this marnin'. I have known me little bye was dead for four hours, and with me heart a-breakin' I had to go on with me work to get me money. There are only a few buttercups in that bundle, but me little bye loved 'em, and I mane to carry them to where he is and place them in the little dead hands and around the little body. Oh! me baby, me baby!" and the poor mother, overcome by her feelings, sank into her seat and gave way for the first time to an unrestrained fit of sobbing and crying that shook the poor frame under the pitiful finery and left not a dry eye in the car.

Without a word the young man who had been the cause of the outburst took off his hat, laid a dollar bill within and started through the car. When the train drew into the Philadelphia depot respectful hands assisted the mother to alight, and there were many other floral offerings on the little casket beside the cherished bunch of buttercups held tight in the baby fingers.—Philadelphia Times.

Simmons Liver Regulator is invaluable in the nursery. It is a gentle laxative, and harmless.

ARE IN NEED OF AID.

Kansas People Have Suffered Beyond Description.

Wellington, Kan., June 2.—The meeting to secure relief for sufferers by the recent cyclone issued an appeal to the people of the United States. The appeal recites the details of the cyclone given in these despatches heretofore, and adds that an almost equal amount of loss has been caused by the heavy rain storm which has prevailed for the past three days, which has not only caused much money loss, but threatens to breed sickness and disease.

The people, says the appeal, are met on every side with want, discouragement and depression. All that could be done to relieve the distress has been done by those citizens of the town who suffered no loss, and still the amount of aid to be rendered is very great.

Continuing, the appeal says: "With your prompt assistance a brave and grateful people will rise and rebuild this city. A few thousand dollars of aid will now accomplish more than many thousand at a more dependent day. Prompt aid would then save the homes and business of many and would rekindle courage and hope. We need money most of all, but would be grateful for anything of value, especially household furniture. This appeal is made with a painful sense of our great extremity, and we commit our cause to the generosity of a sympathetic public."

Signed, J. C. Thompson, chairman relief committee; E. S. Martin, secretary.

GAS COMPANIES COME DOWN

Cleveland Scored a Victory After a Fight.

The Good People of the Forest City Will Pay Only Eighty Cents for Gas.

Cleveland. O., June 2.—The city won a notable victory in a compromise of the cases begun against the two gas companies.

A year ago the council passed an ordinance reducing the price of gas from $1 to 60 cents a thousand. The companies took the matter into the United States circuit court on an equity proceeding declaring that the reduction meant confiscation of their property.

The hearing has been in progress for several months, witnesses having been summoned from all the large cities to prove the gas companies claims. The city was just about to begin the presentation of testimony when a compromise was suggested.

The terms agreed upon and ratified by the council provide that the rate hereafter shall be 80 cents a thousand, the city to pay that price for all gas consumed since May, 1891.

The companies agree to pay into the city treasurey 6 1-2 per cent. of their gross receipts for gas, and to pay all the expenses of litigation. The saving to the people will be about $20,000 aside from the percentage, which will amount to $45,000 more.

THE PROHIBS.

Illinois Cold Water People Put a Full Ticket in the Field.

Springfield, Ill., June 1.—At the prohibition state convention R. R. Link, a farmer, was nominated for governor by acclamation and addressed the convention briefly. The ticket was completed as follows: Lieut.-Governor, Ex-Representative James Lamont, of Winnebago; secretary of state, John T. Killam, of Shelby; auditor of public accounts, Samuel D. Noe, of Vermillion; treasurer, T. S. Marshall, of Marion; attorney general, A. P. Wright, of La Salle; trustees of the Illinois university, Prof Albert G. Gepson, of Lebanon, Prof. Carl Johann, of Eureka and Prof. Levi T. Regan, of Chicago.

WEAK-KNEED SINNERS.

"Don't talk to me about your 'bad men' and your 'killers,'" said Hal Rouse, of Texas, at the Lindell. "I have been among the very worst on the border, and while I don't want to appear as a boaster or a fighter, I never have yet seen one of them that I was the least bit afraid of. They are nearly all cowards and assassins, and all a man needs to protect himself or his interests among them is a little pistol and a steady nerve. The average so-called 'killer' in Texas and throughout the west is a cur who has made his reputation by shooting poor devils in the back or taking advantage of an unarmed man. They murder a tenderfoot on the prairies as they shoot down a buffalo and at about the same distance, too, and they delight in a bar-room brawl among themselves when they know no one is going to get hurt, because one is as big a coward as the other and each man is afraid to shoot first. The fact is, I had rather face a dozen of these western 'killers' at once than one of those quiet, determined men in the large cities of the country."—St. Louis Globe-Democrat.

NO GREAT TOWER.

The exposition, probably, will not have an Eiffel tower or anything approximating it in height, except the elevation to which the captive balloons will ascend. There will be, however, three observation towers about 300 feet high for the accommodation of visitors, who want to take a bird's-eye view of the grounds and buildings. These towers will be of elaborate design and beautiful in appearance and will cost about $200,000 each.

Prejudice and ignorance have given way to Simmons Liver Regulator. It has stood the test.

HE GETS OVER IT IN TIME.

By the "enthusiasm of youth" is meant that the man who has it believes if he is slandered when his back is turned, his friends will jump over each other in their efforts to defend him.—Atchison Globe.

SHE KEPT SAFELY BUSY.

TOLEDO AT THE HEAD

Splendid Compliment to This City.

Western Buyers Swear by Our Grain.

Market Quotations from all Over the World Gathered for Bee Readers

The receipts of Wheat to-day at Minneapolis and Duluth were 245,249 bu and at five other western points 147,150 bu.

The export clearances yesterday at four Atlantic ports were wheat 553,119 bu and flour to an aggregate of 650,000 bu. Export of corn 81,005 bu, and of oats 30,404 bu. English markets are slow for wheat and firm for corn.

Stock of Contract Grain in New York.

No. 2 red wheat, 42,000; decrease, 67,000; No. 1 Northern wheat, 986,000; increase, 108,000; No. 2 corn, 199,000; increase, 8,000; No. 2 oats, 226,000; decrease, 31,000; No. 2 rye, 20,000; decrease, 25,000.

Contract Grain in New York.

We call attention to the above table of contract grain in New York, which shows very meager results. Toledo wheat now commands a premium in New York of 6c to 7c bu for export to the European continent, the identity of the wheat being guaranteed. This result is fairly attributed to two causes, the first being the best and most uniform inspection system in this country, and second, that constantly reiterated statement of this fact in this paper, and correspondence with England and Germany respecting the standard of our wheat as compared with seaboard grades.

Samples of Wheat from Beerbohm.

We are indebted to I. E. Beerbohm, Esq., London, England, for samples by mail of Toledo No. 2 winter wheat, Pennsylvania No. 2 winter, London standard No. 2 winter and No. 2 northern spring. It was very nice in Mr. Beerbohm to thus favor us, and we offer him our thanks. But we must inform him that the sample of No. 2 Toledo is below our grade. We send him to-day by mail a fair and reliable sample of Toledo No. 2 soft wheat, procured of our inspector-in-chief.

Toledo Receipts.

We have forgotten before to mention that in our report of Toledo receipts of wheat on Tuesday, a cargo by lake from Duluth was included twice. Deducting this cargo, leaves of winter wheat for three days 137,000 bu.

Contract Wheat in Western Centers.

Chicago has 133,000 bus. No. 2 red winter; Detroit has 38,000 bus.; St. Louis has 102,000 bus.; Toledo will have 60,000 bus. this evening. The aggregate for these four points, 333,000 bus. The Markets To-day.

While Antwerp and Paris is markets for wheat are reported closing lower, Berlin and Liverpool are reported higher.

The latter market is reported as exceptionally strong.

This change of front in Liverpool, with London quoted lower, has not had its natural effect as the government reports clearing weather over the wheat and corn belt. Snow has been reported in Iowa.

It is almost incredible.

From Indiana comes renewed reports of too rank growth of wheat, and retrograding in the wet weather.

Minneapolis telegraphs that receipts of wheat there will increase next week.

Saturday and Monday next are Whitsuntide holidays in England.

The wheat markets in this country have been firm to-day, and, while at one time, under attacks of short sellers at Chicago, the price weakened for a short time, markets have been well maintained and close 1-4c to 3-8c better in New York and 1-2c to 5-8c better in Chicago.

HARRISON AND REED.

The Presidential Ticket Nominated by the Students of Oberlin College.

Oberlin, O., June 2.—The last session of the mock national republican convention was held before a packed house. Excitement was at fever heat during the entire session.

During the balloting word was received from Washington stating that Blaine would not accept the nomination under any condition. Hence his name was dropped from the list.

John Love nominated Benjamin Harrison, A. M. Ingraham presented William McKinley, and G. Randall presented Gen. Alger as nominees before the convention.

Harrison was nominated for president after a heated contest, with Thomas B. Reed, of Maine, for vice president. McKinley made a hard run against Harrison for president.

THAT WOULD BE NICE.

London, June 2.—The police authorities have informed the American consulate that in order to justify the London police in proceeding against the swindler, William Lord Moore, who has been procuring money from people in the United States on the pretext of prosecuting their claims to mythical estates, some of the American victims would have to come over to England as witnesses.

"SUNDAY EXCURSIONS."

Commencing Sunday, June 5, 1892, the C., J. & M. railway will run a special low rate excursion, Toledo to Devil's Lake and return, each Sunday.

WILL BE LYNCHED IF FOUND.

A Mob Hunting Around Arkansas for a Negro.

Texarkana, Ark., June 2.—Yesterday morning before daylight, Jerome Fisher, a negro, entered the house of Mrs. Dooley, a white woman, and after choking her into insensibility ravished her person. The negro fled and was pursued by citizens.

At 8 o'clock in the afternoon Fisher appeared at the residence of Sheriff Cannon and surrendered. He begged the sheriff for protection and a fair trial. He was taken to the scene of the outrage and identified by Mrs. Dooley, after which he was locked up in jail.

At 10 o'clock last night a mob of several hundred persons surrounded the jail and with sledge hammers battered down the doors and entered. The sheriff had, however, anticipated their action and had spirited the negro away and concealed him.

The mob then began a search for Fisher, but up to a late hour had not discovered his hiding place. It is certain that the negro will be lynched when the mob locates him.

COPPER OUTPUT.

Glasgow, June 2.—The Tharsis Sulphur and Copper company has decided to join in the movement to restrict the output of copper up to July, 1893. The Tharsis company has heretofore refused to take part in the movement and the accession of the company to the arrangement will take 20,000 tons of copper from the supply on European markets.

INJURED IN A RUNAWAY.

Wapakoneta, June 2.—(Special)—This morning while Perry DeLong and his sister were driving to school with a horse and buggy their animal became frightened and ran away.

They were thrown out of the buggy, Perry striking his head against a fence post, breaking his skull. The sister received internal injuries. Perry cannot recover.

SMOTHERED TO DEATH.

TWO HUNDRED DEAD,

Awful Sights at the Mine Explosion.

One Hundred Dead Already Recovered and as Many More Beneath.

Vienna, June 2.—One hundred bodies have been recovered from the pit of death at Przibram. It is believed that not less than one hundred are still in the mine, and there is no hope that even one is alive.

Even if some of the imprisoned miners had survived the fire it was certain that the smoke and heat must have smothered them.

The rescuing party remained at work all night by the light of torches, while hundreds of the relatives of the victims remained camped around the mouth of the mine, hoping against hope that their friends might be brought up alive.

As each body was delivered on the surface there was a rush to identify it and the police had hard work to maintain order, especially as they were under directions not to use any violence.

When a body was recognized loud screams pierced the night air and the women and children threw themselves on the body.

The scene was most pitiful and even the policemen were moved to tears.

There is no doubt that the fire is still raging in portions of the mine and engines continue to pour water into the depths.

WERE SUNDAY SOLDIERS.

Inniskillen Fusiliers Want Feather Beds.

More Insubordination in the British Ranks — The Men Win Their Point.

London, June 2.—The Fifth battalion of the royal Inniskillen fusiliers, Donegal miliatia, going through manouvers at Lifford, County Donegal, Ireland, refused last night to obey the command of their officers to pass the night in tents in the open field.

The reason given by the men for the refusal was that the ground was damp and that occupancy of the tents would result in needless and avoidable injury to their health.

Finding the men resolute in their determination not to occupy their tents, the officers were obliged to find accommodations for them in houses in Lifford.

There was no display of violence. The case will be investigated by the secretary of war. The Royal Inniskillen Fusiliers has for its colonel John Neptune Sargent, C. B. The chief officers of the fifth battalion, at Lifford, are Lieut.-Col. Baptist J. Barton, Major Robert H. Ellis, and Adjutant Charles Edward Bovill.

KRANICH & BACH.

Kranich & Bach pianos are so popular that the manufacturers have been compelled to build an addition to their factory seven stories high, and when completed will give Kranich & Bach the largest and best arranged piano factory in New York city, if not in the world. The great popularity of this piano has been achieved, not by bombiful and extravagant advertising, as is the case with many of the so-called high grade pianos, but purely and simply by actual test and continued use. Such a reputation is as lasting as time, and nothing can steal it or break it down so long as the quality of the piano is kept at its present high standard of workmanship and perfection. J. W. Greene & Co., Pythian Castle, are general agents for Northwestern Ohio.

THOU SHALT NOT STEAL.

The Times-Gazette Case Settled in London.

London, June 2.—In the chancery division to-day Justice North delivered his decision in the case of Walter V. Steinkopf. In this case the proprietors of the Times sought to restrain the proprietor of the St. James Gazette from selling copies of a certain issue of this paper containing reproductions from the Times asserted to be copyright.

In his decision to-day, Justice North held that the St. James Gazette had infringed upon the copyright of the Times by taking the Kipling article, and that the injunction with respect to Kipling articles would be continued, the St. James Gazette being required to pay the costs but no damages.

In regard to other complaints Judge North declared that an injunction would be useless, all public interest in the news represented to have been filched from the Times having passed away.

As the Times had neglected to advise the defendants of their intention to begin suit on the other issue raised, each party would have to pay their own costs.

A LADY'S EXPERIENCE

After Her Husband HAD SPENT ALL HE WAS WORTH.

GADSDEN, ALA., Dec. 21, 1890.

DR. J. B. MARCHISI, Utica, N. Y.

Dear Sir: About one year ago I was near my grave with nervous debility, caused by Ulcer of the Womb. My husband spent all he was worth and all he could make for doctors' bills, and I continued to weaken until my physician told me I could not live sixty days, and that all the doctors in the State could not save my life. A friend persuaded me to try Dr. Marchisi's Uterine Catholicon. I have taken three bottles and now am as stout as ever. Have gained from 93 to 163 pounds, and can do as much work as I could at sixteen.

Mrs. AMELIA H. BOX.

Dr. Marchisi's Uterine Catholicon and Cleansing Wash will cure any kind of female complaint no matter how severe or how long standing. It not only cures the disease, but builds up the strength creating a natural appetite, giving color to the cheeks and the sparkle of health to the eye.

My remedies are for sale by all druggists.

I send to those who desire to test its merits, two bottles free, and thus prove it does do what I claim for it.

DR. J. B. MARCHISI, UTICA, N. Y.

WAR ON ARAB SLAVERS.

Captain Ponthier Breaks Up the Business of Raiders from Khartoum.

The Congo Free State has received a report from Capt. Ponthier, who has been stationed about a year between the Mobangi-Makua and Congo rivers, with regard to his fights with Arab slave dealers from Khartoum and his successful efforts to defeat their efforts to ravage the country south of the Congo.

He found in September last that large bands of these Arabs had established themselves in strongly fortified towns on islands in the Makua river, that they had laid waste large districts north of the river, and that prompt measures must be taken or they would extend their murderous rades to the tribes further south. The chiefs all through the southern part of his district were terribly frightened by the news that reached them of Arab atrocities in the northern districts. They eagerly welcomed the news that Capt. Ponthier was about to lead an expedition against the Arabs, and decided to help him with a considerable force of native warriors.

The captain was, therefore, able to set out for the Arab towns late in October with about 200 well-armed soldiers of the state and upward of 1,000 natives armed with spears. His march was so rapid that he took the Arabs by surprise, and after a hard battle, in which about 100 of the enemy were killed, they fled from their strongest village, and crossing to the north shore of the river scattered in all directions. Night came too soon to permit Ponthier to follow up his victory, but the next day and for three days after he attacked the towns on other islands with similar success, driving all the Arabs across the river and getting possession of 250 slaves whom they had recently captured.

A great number of these unfortunates had been fastened together by iron chains attached to rings that had been placed around their necks. They told sad stories of their terrible sufferings. As usual, the Arabs had killed or driven into the jungle to perish about five persons for every one they captured. Their fortifications were found to be of unusual strength. Several rows of palisades surrounded each village. Captain Ponthier thinks that he has stopped the progress of the Arabs in this direction.

THE GOSPEL AFLOAT.

Another Mission Ship to Work on the Lakes.

She is Called the Liberty and Has Just Been Launched at Chicago —News of Capt. Bundy and the Glad Tidings.

Readers of the Bee will remember Captain Bundy and his good mission ship Glad Tidings, which visited this port last summer. The appreciation of the need of just the kind of mission work he is doing is shown in the fact that another gospel ship was launched at O. Marcott's shipyard in Chicago, yesterday, having been built and her machinery being put in during the past winter and spring. Rev. Ashley, who will carry the gospel about the lakes on the new craft, was formerly a Methodist minister, but now announces himself as independent in religious thought, and says he will preach the gospel of Jesus Christ without regard to denominational lines, so that all may listen to him. He had often heard the Rev. Capt. Bundy, of the gospel ship Glad Tidings, preach and Rev. Bundy's work may have suggested the idea to him.

The launch was a perfect success, no accidents occurring to mar the pleasures of the occasion. A few remarks were made by Mr. Ashley, dedicating the ship to the true gospel and christening her the Liberty—meaning liberty of religious thought—and then a fervent prayer was addressed to the throne of grace for the success of the great mission. A large number of people were interested in the services.

The Liberty is 58 feet in length, has 12 1-2 feet breadth of beam and 6 feet depth of hold. She has good power and carries two spars, being built and fitted out for speed in catching sinners. She will be towed to Cheboygan, Wis., to receive her finishing touches and will commence her first cruise the latter part of the present month.

Owing th the backwardness of the season the gospel ship Glad Tidings, Rev. Capt. Bundy, which wintered in Chicago, has not yet started out on her annual cruise, but will do so as soon as the weather settles.
